

Example Large (Reporting) P/L Consolidated Financial Statements

International Financial Reporting Standards (IFRS)

Grant Thornton CLEARR Example
Pty Ltd
30 June 2011

Introduction

Example Consolidated Financial Statements 2011

The preparation of financial statements in accordance with Australian Accounting Standards (AASBs) [Australian Equivalents to International Financial Reporting Standards (AIFRS)] has been challenging over the last reporting season with the implementation of new disclosure requirements in respect of business combinations, segment reporting and the presentation of the primary statements within the financial report. The upcoming reporting season sees a period of consolidation and refinement, as there are minimal changes to the financial reporting requirements. However, preparers need to be wary of the next oncoming wave of changes currently unfolding in the next couple of years with the completion of the various convergence projects between the International Accounting Standards Board (IASB)/Financial Accounting Standards Board (FASB), especially in the areas of financial instruments, revenue and leasing.

Should preparers like to discuss the recent developments within these areas and how these may impact upon your business, please contact your local Grant Thornton Australia contact, or the National Accounting Support (NAS) team on nationalaudit.support@au.gt.com. There are also various publications (TA and EI Alerts) on our website www.grantthornton.com.au which provide an overview of these developments.

Grant Thornton Australia is pleased to publish *Example Consolidated Financial Statements 2011*, which is based on the recent Grant Thornton International publication, however has been tailored to suit the Australian financial reporting and regulatory environment. This publication is intended to illustrate the 'look and feel' of AIFRS financial statements and to provide a realistic example of their presentation.

Example Consolidated Financial Statements 2011 is based on the activities and results of Grant Thornton CLEARR Example Pty Ltd and subsidiaries (the Group) - a fictional IT entity that has been preparing AIFRS financial statements for several years. The form and content of AIFRS financial statements depend of course on the activities and transactions of each reporting entity. Our objective in preparing *Example Consolidated Financial Statements 2011* was to illustrate one possible approach to financial reporting by an entity engaging in transactions that are 'typical' across a range of non-specialist sectors. However, as with any example, this illustration does not envisage every possible transaction and cannot therefore be regarded as comprehensive. Management is responsible for the fair presentation of financial statements and therefore may find other approaches more appropriate in their specific circumstances.

Example Consolidated Financial Statements 2011 has been reviewed and updated to reflect changes in AASBs that are effective for the year ending 30 June 2011. However, no account has been taken of any new developments published after **31 December 2010**. The Grant Thornton website contains any updates that are relevant for 30 June 2011 financial statements including our June 2011 'Updated Accounting Standards issued by the IASB/AASB but not yet applicable'.

Using this publication

In some areas alternative presentation and disclosure approaches are also illustrated in the Appendices. For further guidance on the Standards and Interpretations applied, reference is made to Australian Accounting Standards and Interpretations sources throughout the document on the left hand side of each page.

The use of this publication is not a substitute for the use of a comprehensive and up to date disclosure checklist to ensure completeness of the disclosures in AIFRS financial statements.

Directors' Report

The Directors of Grant Thornton CLEARR Example Pty Ltd ('Grant Thornton CLEARR') present their Report together with the financial statements of the consolidated entity, being Grant Thornton CLEARR ('the Company') and its controlled entities ('the Group') for the year ended 30 June 2011 and the Independent Audit Report thereon.

CA 300(1)(c)

Director details

The following persons were directors of Grant Thornton CLEARR during or since the end of the financial year.

Mr Blake Smith
 Ms Beth King
 Mr Simon Murphy
 Mrs Alison French
 Mr William Middleton appointed 28 May 2011

CA 299(1)(c)

Principal activities

During the year, the principal activities of entities within the Group were:

- Sale, customisation and integration of IT and telecommunications systems;
- Maintenance of IT and telecommunications systems; and
- Internet based selling of hardware and software products.

There have been no significant changes in the nature of these activities during the year.

CA 299(1)(a)

Review of operations and financial results

The operating result of the Group has increased to \$15.4m (2010: \$13.5m); this is mainly due to the cost control measures implemented during the year which have allowed increased revenue with a lower proportionate cost base.

Additional capital raising activities were undertaken during the year which raised \$16.7m and allowed the Group to fund the Goodtech acquisition via a cash settlement as well as positioning the Group in a strong cash position for 2011 / 2012 to allow for future acquisitions, if appropriate opportunities arise.

The acquisitions and disposals which have occurred during the year are in line with the Group's strategy to increase online sales capacity.

Goodwill of \$2.4m arising on acquisition of Goodtech (as described below) is primarily related to growth expectations, expected future profitability, the substantial skill and expertise of Goodtech's workforce and expected cost synergies.

CA 299(1)(b)

Significant changes in the state of affairs

During the year, the following changes occurred within the Group:

- Acquisition of Goodtech GmbH
 - On 30 September 2010, the Group acquired 100% of the equity instruments of Goodtech GmbH (Goodtech), a Hamburg (Euroland) based business, thereby obtaining control. The acquisition was made to enhance the Group's position in the retail market for computer and telecommunications hardware in Euroland. Goodtech is a significant business in Euroland in the Group's targeted market. The cost of the acquisition was \$16.06m which was settled in cash.
- Disposal of Highstreet
 - On 31 March 2011, the Group disposed of its 100% equity interest in its subsidiary, Highstreet Limited. The subsidiary was classified as held for sale in the 2010 financial statements. There was a loss on disposal of \$29,000.
- Issue of share capital
 - On 31 March 2011, the Group issued 1,500,000 shares as part of its capital raising program which resulted in proceeds of \$16.7m, each share has the same terms and conditions as the existing ordinary shares.

Dividends

CA 300(1)(a)

In respect of the current year, a fully franked interim dividend of \$3,000,000 (25c per share) was paid on 31 March 2011 (2010: \$nil).

CA 300(1)(b)

In addition to the interim dividend and since the end of the financial year, directors have declared a fully franked final dividend of \$6,885,000 (50c per share) to be paid on 15 October 2011 (2010: \$nil).

CA 299(1)(d)

Events arising since the end of the reporting period

Apart from the final dividend declared, there are no other matters or circumstances that have arisen since the end of the year that has significantly affected or may significantly affect either:

- The entity's operations in future financial years;
- The results of those operations in future financial years; or
- The entity's state of affairs in future financial years.

Likely developments

CA 299(1)(e)

Information on likely developments in the Group's operations and the expected results have not been included in this report because the directors believe it would likely result in unreasonable prejudice to the Group.

CA 300 (1)(d)

CA 300 (1)(e)

Unissued shares under option

Unissued ordinary shares of Grant Thornton CLEARR under option at the date of this report are:

Date options granted	Expiry date	Exercise price of shares (\$)	Number under option
5 July 2006	31 July 2011	5.74	90,749
1 July 2007	30 June 2012	6.24	29,175
1 August 2010	30 June 2015	7.61	100,000
			219,924

All options expire on the earlier of their expiry date or termination of the employee's employment. These options were issued under either the Star or Stay programme (described in note 21.2 to the financial statements) and have been allotted to individuals on conditions that they serve specified time periods as an employee of the Group before becoming entitled to exercise the options. These options do not entitle the holder to participate in any share issue of the Company.

CA 300(1)(f)

Shares issued during or since the end of the year as a result of exercise

During or since the end of the financial year, the Company issued ordinary shares as a result of the exercise of options as follows (there were no amounts unpaid on the shares issued):

Date options granted	Issue price of shares (\$)	Number of shares issued
1 July 2007	6.24	270,000

CA 299 (1f)

Environmental legislation

Grant Thornton CLEARR operations are not subject to any particular or significant environmental regulation under a law of the Commonwealth or of a State or Territory in Australia.

CA 300 (1g)

Indemnities given and insurance premiums paid to auditors and officers

During the year, Grant Thornton CLEARR paid a premium to insure officers of the Group. The officers of the Group covered by the insurance policy include all directors.

The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as officers of the Group, and any other payments arising from liabilities incurred by the officers in connection with such proceedings, other than where such liabilities arise out of conduct involving a wilful breach of duty by the officers or the improper use by the officers of their position or of information to gain advantage for themselves or someone else to cause detriment to the Group.

Details of the amount of the premium paid in respect of the insurance policies is not disclosed as such disclosure is prohibited under the terms of the contract.

The Group has not otherwise, during or since the end of the financial year, except to the extent permitted by law, indemnified or agreed to indemnify any current or former officer or auditor of the Group against a liability incurred as such by an officer or auditor.

CA 300(14) / (15)	<p>Proceedings of behalf of the Company</p> <p>No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.</p>
ASIC CO 98/100	<p>Rounding of amounts</p> <p>Grant Thornton CLEARR is a type of Company referred to in ASIC Class Order 98/100 and therefore the amounts contained in this report and in the financial report have been rounded to the nearest \$1,000 (where rounding is applicable), or in certain cases, to the nearest dollar under the option permitted in the class order.</p>
CA 307C	<p>Auditor's Independence Declaration</p> <p>A copy of the auditor's independence declaration as required under s307C of the <i>Corporations Act 2001</i> is included in page 10 of this financial report and form part of this Directors report.</p>
CA 298 (2a)	Signed in accordance with a resolution of the directors.
CA 298 (2c)	Blake Smith Director
CA 298 (2b)	31 August 2011

To the Directors of Grant Thornton CLEARR Example Pty Ltd

In accordance with the requirements of section 307C of the Corporations Act 2001, as lead auditor for the audit of Grant Thornton CLEARR Example Pty Ltd for the year ended 30 June 2011, I declare that, to the best of my knowledge and belief, there have been:

- a no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- b no contraventions of any applicable code of professional conduct in relation to the audit.

Comments: Statement of Financial Position

The statement of financial position complies with AASB 101 *Presentation of Financial Statements* (Revised 2007).

If the entity; (i) applies an accounting policy retrospectively, (ii) makes a retrospective restatement of items in its financial statements, or (iii) reclassifies items in the financial statements, the entity shall present a statement of financial position as at the beginning of the earliest comparative period, ie an extra comparative statement of financial position at for example 1 July 2009 (AASB 101.10(f) and AASB 101.39). Grant Thornton CLEARR Example Pty Ltd has elected to include a third statement of financial position in the current year even though it is not required by AASB 101, as there have been no retrospective changes or reclassifications of items in the financial statements (AASB 101.39). This approach allows entities to maintain a more consistent format and layout from one year to the next and may therefore save on design and printing costs.

The statement of financial position includes a current/non-current distinction. When presentation based on liquidity is reliable and more relevant, the entity can choose to present the statement of financial position in order of liquidity (AASB 101.60). The entity will then not present a current/non-current distinction in the statement of financial position. However the disclosure requirements for amounts expected to be recovered or settled before or after 12 months must still be applied (AASB 101.61).

The Example Consolidated Financial Statements 2011 use the terminology in AASB 101 (Revised 2007), however an entity may use other titles (eg balance sheet) for the primary financial statements (AASB 01.10).

Comments: Statement of Comprehensive Income

The statement of comprehensive income has been prepared in accordance with AASB 101 *Presentation of Financial Statements* (Revised 2007), which introduced the concept of a statement of comprehensive income. The statement of comprehensive income may be presented in one of the following ways:

- in a **single** statement of comprehensive income, or
- in **two** statements: a statement displaying components of profit or loss (separate income statement) and a statement of comprehensive income.

The example financial statements illustrate a statement of comprehensive income in a **single** statement. A two statement presentation is shown in Appendix B.

This statement of comprehensive income format illustrates an example of the 'nature of expense method'. See Appendix A for a format illustrating the 'function of expense' or 'cost of sales' method.

This statement of comprehensive income presents an 'operating profit' subtotal, which is commonly seen but is not required or defined in AASB's. Where this subtotal is provided, the figure disclosed should include items that would normally be considered to be operating. It is inappropriate to exclude items clearly related to operations (eg inventory write-downs and restructuring and relocation expenses) on the basis that they do not occur regularly or are unusual in amount (see AASB 101 Basis for Conclusions paragraph 56).

This statement of comprehensive income includes an amount representing the entity's share of profit from equity accounted investments. This amount represents profit after tax and non-controlling interest in those investments (as indicated in the Illustrative Financial Statement Structure in AASB 101).

AASB 101 (Revised 2007) requires the entity to disclose reclassification adjustments and related tax effects relating to components of other comprehensive income either on the face of the statement or in the notes.

In this example the entity presents reclassification adjustments and current year gains and losses relating to other comprehensive income on the face of the statement of comprehensive income (AASB 101.92). An entity may instead present reclassification adjustments in the notes, in which case the components of other comprehensive income are presented after any related reclassification adjustments (AASB 101.94).

According to AASB 101.90 an entity shall disclose the amount of income tax relating to each component of other comprehensive income, either on the face of the statement of comprehensive income or in the notes. In this example the entity presents components of other comprehensive income before tax with one amount shown for the aggregate amount of income tax relating to all components of other comprehensive income (AASB 101.91(b)). Alternatively, the entity may present each component of other comprehensive income net of related tax effects, AASB 101.91(a). If the tax effects of each component of other comprehensive income are not presented on the face of the statement this information shall be presented in the notes (see note 15).

Statement of Comprehensive Income

as of 30 June 2011

AASB 101.51(c)	Notes	2011	2010
AASB 101.51(d-e)		\$'000	\$'000

AASB 101.106(d) Balance at 30 June 2011	33,415	764	(847)	901	98	469	48,401	83,201	713	83,914

This statement should be read in conjunction with the notes to the financial statements

1 AASB 2 *Share-based Payment* requires an entity to recognise equity-settled share-based payment transactions as changes in equity but does not specify how this is presented, eg in a separate reserve within equity or within retained earnings. In our view, either approach would be allowed under IFRS's. Share option reserve has been credited with an increase in equity in this example (see also note 4.26).

Statement of Cash Flows

For the year ended 30 June 2011

AASB 101.51(c) AASB 101.51(d-e)	Notes	2011 \$'000	2010 \$'000

Notes to the consolidated financial statements

AASB 101.51 (a) AASB 101.51 (b)	<p>1 Nature of operations</p> <p>Grant Thornton CLEARR Example Pty Ltd and subsidiaries' (the Group) principal activities include the development, consulting, sale and service of customised IT and telecommunication systems.</p>
AASB 101.138 (b)	<p>The Group provides phone and intranet based in-house applications including the integration of mobile end devices into new and existing IT and telecommunication structures. By integrating these activities, the Group acts as a one-stop-shop for the modern day communication requirements of small- to medium-sized companies. Services include consulting activities that concentrate on the design of combined IT and telecommunication systems for clients. The Group also delivers IT and telecommunication solutions specifically designed for the customer through modification of complex equipment. The Group sells the hardware and software products of the Group's business partners and delivers extensive after-sale service and maintenance for these products. The acquisitions and disposals described in note 5 are in line with the Group's strategy to increase online sales capacity.</p>
AASB 101.Aus 15.2 / Aus 15.4 / 16	<p>2 General information and statement of compliance</p> <p>The consolidated general purpose financial statements of the Group have been prepared in accordance with the requirements of the Corporations Act 2001, Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board. Compliance with Australian Accounting Standards results in full compliance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).</p>
AASB 101.138 (a) AASB 101.138 (c)	<p>Grant Thornton CLEARR Example Pty Ltd is the Group's ultimate parent company. Grant Thornton CLEARR Example Pty Ltd is a proprietary company incorporated and domiciled in Australia. The address of its registered office and its principal place of business is 149a Great Place, 40237 Greatville, Australia.</p>
AASB 101.51 (c) AASB 110.17	<p>The consolidated financial statements for the year ended 30 June 2011 (including comparatives) were approved and authorised for issue by the board of directors on 31 August 2011 (see note 38).</p>

3 Changes in accounting policies

3.1 Overall considerations

AASB 101.117

The Group has adopted the following revisions and amendments to AASB's issued by the Australian Accounting Standards Board and IFRS issued by the International Accounting Standards Board, which are relevant to and effective for the Group's financial statements for the annual period beginning 1 July 2010².

- Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project- AASB 2009-5
- Improvements to IFRSs- AASB 2010-03

Significant effects on current, prior or future periods arising from the first-time application of these new requirements in respect of presentation, recognition and measurement are described in notes 3.2 to 3.3. An overview of standards, amendments and interpretations to IFRSs and AASBs issued but not yet effective is given in note 3.4.

3.2 Adoption of improvements to IFRSs 2009 – AASB 2009-5

AASB 108.28 (a)
AASB 108.28 (c)

The *Improvements to IFRSs 2009* (issued as AASB 2009-5 *Further amendments to Australian Accounting Standards arising from the Annual Improvements Project*) made several minor amendments to IFRSs. The only amendment relevant to the Group relates to AASB 117 *Leases*. The amendment requires that leases of land are classified as finance or operating by applying the general principles of AASB 117. Prior to this amendment, AASB 117 generally required a lease of land to be classified as an operating lease. The Group has reassessed the classification of the land elements of its unexpired leases at 1 July 2010 on the basis of information existing at the inception of those leases and has determined that none of its leases require reclassification.

3.3 Adoption of Improvements to IFRSs 2010 - AASB 2010-3

The IASB has issued *Improvements to IFRS 2010* (2010 Improvements) which was issued in Australia as AASB 2010-3 *Amendments to Australian Accounting Standards arising from the Annual Improvement Project*. Most of these amendments become effective in annual periods beginning on or after 1 July 2010 or 1 January 2011. The 2010 Improvements amend certain provisions of AASB 3, clarify presentation of the reconciliation of each of the components of other comprehensive income and clarify certain disclosure requirements for financial instruments. The 2010 Improvements did not have a material impact on the Group's financial statements.

3.4 Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Group³

AASB 108.30
AASB 108.31

At the date of authorisation of these financial statements, certain new standards, amendments and interpretations to existing standards have been published but are not yet effective, and have not been adopted early by the Group.

2 The discussion of the initial application of IFRSs/AASBs needs to be disclosed only in the first financial statements after the new or revised rules have been adopted by the entity.

3 These example financial statements were published in April 2011 and take into account new and amended standards and interpretations published up to and including 31 December 2010. In practice, this note should reflect those new and amended standards and interpretations published up to the date the financial statements are authorised for issue. Refer to recent Grant Thornton Technical Accounting (TA) Alerts found on our website (www.grantthornton.com.au) to obtain an update to these.

Management anticipates that all of the relevant pronouncements will be adopted in the Group's accounting policies for the first period beginning after the effective date of the pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Group's financial statements is provided below⁴.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Group's financial statements.

IFRS 9 / AASB 9 *Financial Instruments* (effective from 1 January 2013)

The IASB aims to replace IAS 39 (AASB 139) *Financial Instruments: Recognition and Measurement* in its entirety. The replacement standard (AASB 9) is being issued in phases. To date, the chapters dealing with recognition, classification, measurement and derecognition of financial assets and liabilities have been issued. These chapters are effective for annual periods beginning 1 January 2013. Further chapters dealing with impairment methodology and hedge accounting are still being developed.

Management have yet to assess the impact that this amendment is likely to have on the financial statements of the Group. However, they do not expect to implement the amendments until all chapters of AASB 9 have been published and they can comprehensively assess the impact of all changes.

4 Summary of accounting policies

4.1 Overall considerations

AASB 101.114 (b)
AASB 101.117 (b)

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarised below⁵.

AASB 101.117 (a)

The consolidated financial statements have been prepared using the measurement bases specified by Australian Accounting Standards for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies below.

4.2 Presentation of financial statements

AASB 101.39

AASB 101 requires two comparative periods to be presented for the statement of financial position in certain circumstances. The Group has elected to provide the additional comparatives in all circumstances to maintain a more consistent presentation each year⁶.

4 Entities wishing to early adopt an accounting standard before its operative date must make a formal, written election to do so in accordance with CA 334(5) and disclose that fact in the notes. An example of such wording is "The Directors resolved to early adopt [Name of accounting standard] for the year ended 30 June 2011 in accordance with section 334(5) of the Corporations Act."

5 Disclosure of accounting policies shall reflect the facts and circumstances of the entity. In this set of example financial statements the accounting policies reflect the activities of the fictitious entity, Grant Thornton CLEARR Example Pty Ltd and subsidiaries. The accounting policies should therefore in all cases be tailored to the facts and circumstances in place, which may prescribe that less extensive accounting policies are disclosed for the entity.

6 Grant Thornton CLEARR Example Pty Ltd has elected to include a third statement of financial position in the current year even though it is not required by AASB 101, as there have been no retrospective changes or reclassifications of items in the financial statements (AASB 101.39). This approach allows entities to maintain a more consistent format and layout from one year to the next and may therefore save on design and printing costs.

AASB 101.81

The consolidated financial statements are presented in accordance with AASB 101 *Presentation of Financial Statements* (Revised 2007). The Group has elected to present the 'Statement of comprehensive income' as a single statement.

4.3 Basis of consolidation

AASB 101.117 (a)
AASB 101.117 (b)

The Group financial statements consolidate those of the parent company and all of its subsidiary undertakings drawn up to 30 June 2011. Subsidiaries are all entities over which the Group has the power to control the financial and operating policies. The Group obtains and exercises control through more than half of the voting rights. All subsidiaries have a reporting date of 30 June.

AASB 127.41 (a)
AASB 127.41 (c)

All transactions and balances between Group companies are eliminated on consolidation, including unrealised gains and losses on transactions between Group companies. Where unrealised losses on intra-group asset sales are reversed on consolidation, the underlying asset is also tested for impairment from a group perspective. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group.

Profit or loss and other comprehensive income of subsidiaries acquired or disposed of during the year are recognised from the effective date of acquisition, or up to the effective date of disposal, as applicable.

Non-controlling interests, presented as part of equity, represent the portion of a subsidiary's profit or loss and net assets that is not held by the Group. The Group attributes total comprehensive income or loss of subsidiaries between the owners of the parent and the non-controlling interests based on their respective ownership interests.

4.4 Business combination

AASB 101.117 (a)
AASB 101.117 (b)

The consideration transferred by the Group to obtain control of a subsidiary is calculated as the sum of the acquisition-date fair values of assets transferred, liabilities incurred and the equity interests issued by the Group, which includes the fair value of any asset or liability arising from a contingent consideration arrangement. Acquisition costs are expensed as incurred.

The Group recognises identifiable assets acquired and liabilities assumed in a business combination regardless of whether they have been previously recognised in the acquiree's financial statements prior to the acquisition. Assets acquired and liabilities assumed are generally measured at their acquisition-date fair values.

Goodwill is stated after separate recognition of identifiable intangible assets. It is calculated as the excess of the sum of a) fair value of consideration transferred, b) the recognised amount of any non-controlling interest in the acquiree and c) acquisition-date fair value of any existing equity interest in the acquiree, over the acquisition-date fair values of identifiable net assets. If the fair values of identifiable net assets exceed the sum calculated above, the excess amount (ie gain on a bargain purchase) is recognised in profit or loss immediately.

4.5 Investments in associates and joint ventures

AASB 131.57
AASB 101.117 (a)
AASB 101.117 (b)

Entities whose economic activities are controlled jointly by the Group and other ventures independent of the Group (joint ventures) are accounted for using the proportionate consolidation method, whereby the Group's share of the assets, liabilities, income and expenses is included line by line in the consolidated financial statements.

Associates are those entities over which the Group is able to exert significant influence but which are neither subsidiaries nor joint ventures. Investments in associates are initially recognised at cost and subsequently accounted for using the equity method.

Any goodwill or fair value adjustment attributable to the Group's share in the associate is not recognised separately and is included in the amount recognised as investment in associates.

The carrying amount of the investments in associates is increased or decreased to recognise the Group's share of the profit or loss and other comprehensive income of the associate. These changes include subsequent depreciation, amortisation or impairment of the fair value adjustments of assets and liabilities.

Unrealised gains and losses on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in those entities. Where unrealised losses are eliminated, the underlying asset is also tested for impairment.

Amounts reported in the financial statements of associates and jointly controlled entities have been adjusted where necessary to ensure consistency with the accounting policies of the Group.

4.6 Foreign currency translation

AASB 121.53

The consolidated financial statements are presented in Australian dollars (AUD), which is also the functional currency of the parent company.

AASB 101.117 (a)
AASB 101.117 (b)

Foreign currency transactions are translated into the functional currency of the respective Group entity, using the exchange rates prevailing at the dates of the transactions (spot exchange rate). Foreign exchange gains and losses resulting from the settlement of such transactions and from the remeasurement of monetary items at year end exchange rates are recognised in profit or loss.

Non-monetary items measured at historical cost are translated using the exchange rates at the date of the transaction (not retranslated). Non-monetary items measured at fair value are translated using the exchange rates at the date when fair value was determined.

In the Group's financial statements, all assets, liabilities and transactions of Group entities with a functional currency other than the AUD (the Group's presentation currency) are translated into AUD upon consolidation. The functional currency of the entities in the Group have remained unchanged during the reporting period.

On consolidation, assets and liabilities have been translated into AUD at the closing rate at the reporting date. Income and expenses have been translated into the Group's presentation currency at the average rate⁷ over the reporting period. Exchange differences are charged/credited to other comprehensive income and recognised in the currency translation reserve in equity. On disposal of a foreign operation the cumulative translation differences recognised in equity are reclassified to profit or loss and recognised as part of the gain or loss on disposal. Goodwill and fair value adjustments arising on the acquisition of a foreign entity have been treated as assets and liabilities of the foreign entity and translated into AUD at the closing rate.

4.7 Revenue

Revenue comprises revenue from the sale of goods and the rendering of services plus the Group's share of the revenue of its joint ventures. Revenue from major products and services is shown in note 8.

AASB 118.35 (a)

Revenue is measured by reference to the fair value of consideration received or receivable by the Group for goods supplied and services provided, excluding sales taxes, rebates, and trade discounts.

The Group often enters into sales transactions involving a range of the Group's products and services (multiple components), for example for the delivery of hardware, software and related after-sales service. The Group applies the revenue recognition criteria set out below to each separately identifiable component of the sales transaction in order to reflect the substance of the transaction. The consideration received from these transactions is allocated to the separately identifiable component by taking into account the relative fair value of each component.

Revenue is recognised when the amount of revenue can be measured reliably, collection is probable, the costs incurred or to be incurred can be measured reliably, and when the criteria for each of the Group's different activities have been met. These activity-specific recognition criteria are based on the goods or solutions provided to the customer and the contract conditions in each case, and are described below.

AASB 101.117 (b)

Sale of goods (hardware or software)

Sale of goods comprises the sale of software and hardware, and is recognised when the Group has transferred to the buyer the significant risks and rewards of ownership of the goods supplied. Significant risks and rewards are generally considered to be transferred to the buyer when the customer has taken undisputed delivery of the goods.

Revenue from the sale of hardware or software products with no significant service obligation is recognised on delivery. Where software or hardware requires significant tailoring, modification or integration the revenue is recognised using the percentage of completion method as described below.

When goods are sold together with customer loyalty incentives, the arrangement is considered a multiple-element arrangement. The consideration receivable is allocated between the components of the sale based on their fair values. Revenue from sales of incentives is recognised when they are redeemed by customers in exchange for products supplied by the Group.

7 Note that the use of average rates is appropriate only if rates do not fluctuate significantly (AASB 121.40).

AASB 101.117 (b)

Rendering of services

Services comprise after-sales service and maintenance, consulting, rental income and construction contracts for telecommunication solutions (see note 8).

The Group commits to extensive after-sales support and maintenance in its service segment. The amount of the selling price associated with the servicing agreement is deferred and recognised as revenue over the period during which the service is performed. This deferred income is included in 'other liabilities'.

Revenue from consulting services is recognised when the services are provided by reference to the stage of completion of the contract at the reporting date (see below for further information on the stage of completion).

Rental income from operating leases of the Group's investment properties is recognised on a straight-line basis over the term of the lease.

AASB 101.117 (b)

Construction contracts for telecommunication solutions

The Group provides telecommunication solutions specifically customised to each customer. These contracts specify a fixed price for the development and installation of IT and telecommunication systems, and are within the scope of AASB 111 *Construction Contracts*.

AASB 111.39 (b)
AASB 118.35 (a)

When the outcome can be assessed reliably, contract revenue and associated costs are recognised as revenue and expenses respectively by reference to the stage of completion of the contract activity at the reporting date. Revenue is measured at the fair value of consideration received or receivable in relation to that activity.

When the Group cannot measure the outcome of a contract reliably, revenue is recognised only to the extent of contract costs that have been incurred and are recoverable. Contract costs are recognised in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised immediately in profit or loss.

AASB 101.117 (a)
AASB 111.39 (c)
AASB 101.122

The stage of completion of any construction contract is assessed by management by taking into consideration all information available at the reporting date. The Group's construction contracts usually define milestones for the project work to be carried out.

The maximum amount of revenue to be recognised for each milestone is determined by estimating relative contract fair values of each project phase, i.e. by comparing overall revenue that the Group expects from its construction contract with the profit expected to be made on fulfilling the corresponding milestone. Progress and related contract revenue in-between milestones is determined by comparing costs incurred to date with the total estimated costs estimated for that particular milestone (this procedure is sometimes referred to as the 'cost-to-cost' method).

The gross amount due from customers for contract work is presented as an asset within 'trade and other receivables' for all contracts in progress for which costs incurred plus recognised profits (less recognised losses) exceeds progress billings. The gross amount due to customers for contract work is presented as a liability within 'other liabilities' for all contracts in progress for which progress billings exceed costs incurred plus recognised profits (less losses).

AASB 118.30

Interest and dividend income

Interest income and expenses are reported on an accrual basis using the effective interest method. Dividend income, other than those from investments in associates, are recognised at the time the right to receive payment is established.

AASB 101.117 (b)

4.8 Operating expenses

Operating expenses are recognised in profit or loss upon utilisation of the service or at the date of their origin. Expenditure for warranties is recognised and charged against the associated provision when the related revenue is recognised.

AASB 101.117 (b)

4.9 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in 'finance costs' (see note 25).

AASB 101.117 (b)
AASB 5.32

4.10 Profit or loss from discontinued operations

A discontinued operation is a component of the entity that either has been disposed of, or is classified as held for sale, and:

- represents a separate major line of business or geographical area of operations;
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- is a subsidiary acquired exclusively with a view to resale.

AASB 5.33

Profit or loss from discontinued operations, including prior year components of profit or loss, are presented in a single amount in the statement of comprehensive income. This amount, which comprises the post-tax profit or loss of discontinued operations and the post-tax gain or loss resulting from the measurement and disposal of assets classified as held for sale (see also note 4.22), is further analysed in note 19.

AASB 5.34

The disclosures for discontinued operations in the prior year relate to all operations that have been discontinued by the reporting date for the latest period presented. Where operations previously presented as discontinued are now regarded as continuing operations, prior period disclosures are correspondingly re-presented.

4.11 Goodwill

Goodwill represents the future economic benefits arising from a business combination that are not individually identified and separately recognised. See note 9 for information on how goodwill is initially determined. Goodwill is carried at cost less accumulated impairment losses. Refer to note 4.15 for a description of impairment testing procedures.

4.12 Other intangible assets

AASB 138.118 (a)
AASB 138.118 (b)

Other intangible assets include acquired and internally developed software used in production or administration and brand names and customer lists that qualify for recognition as an intangible asset in a business combination. They are accounted for using the cost model whereby capitalised costs are amortised on a straight-line basis over their estimated useful lives, as these assets are considered finite. Residual values and useful lives are reviewed at each reporting date. In addition, they are subject to impairment testing as described in note 4.15. The following useful lives are applied:

- Software: 3-5 years
- Brand names: 15-20 years
- Customer lists: 4-6 years.

AASB 138.118 (d)

Amortisation has been included within 'depreciation, amortisation and impairment of non-financial assets'.

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and install the specific software. Subsequent expenditure is expensed as incurred.

AASB 101.117 (b)

Costs associated with maintaining computer software, i.e. expenditure relating to patches and other minor updates as well as their installation, are expensed as incurred.

AASB 101.117 (b)

Research and Development Expenditure

Expenditure on research (or the research phase of an internal project) is recognised as an expense in the period in which it is incurred.

AASB 138.57

Costs that are directly attributable to the development phase of new customised software for IT and telecommunication systems are recognised as intangible assets provided they meet the following recognition requirements:

- completion of the intangible asset is technically feasible so that it will be available for use or sale;
- the Group intends to complete the intangible asset and use or sell it;
- the Group has the ability to use or sell the intangible asset;
- the intangible asset will generate probable future economic benefits. Among other things, this requires that there is a market for the output from the intangible asset or for the intangible asset itself, or, if it is to be used internally, the asset will be used in generating such benefits;
- there are adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the expenditure attributable to the intangible asset during its development can be measured reliably.

Development costs not meeting these criteria for capitalisation are expensed as incurred.

AASB 138.118 (a)
AASB 138.118 (b)

Directly attributable costs include employee (other than directors) costs incurred on software development along with an appropriate portion of relevant overheads and borrowing costs.

Internally generated software developments recognised as intangible assets are subject to the same subsequent measurement method as externally acquired software licences. However, until completion of the development project, the assets are subject to impairment testing only as described below in note 4.15.

The gain or loss arising on the disposal of an intangible asset is determined as the difference between the proceeds and the carrying amount of the asset, and is recognised in profit or loss within 'other income' or 'other expenses'.

4.13 Property, plant and equipment

AASB 116.73 (a)
AASB 116.73 (b)
AASB 116.73 (c)
AASB 101.117 (a)

Land held for use in production or administration is stated at re-valued amounts. As no finite useful life for land can be determined, related carrying amounts are not depreciated. Revalued amounts are fair market values determined in appraisals by external professional valuers once every two years, unless market-based factors indicate a material change in fair value, in which case a further revaluation is performed.

AASB 101.117 (b)

Any revaluation surplus arising upon appraisal of land is recognised in other comprehensive income and credited to the 'revaluation reserve' in equity. To the extent that any revaluation decrease or impairment loss (see note 4.15) has previously been recognised in profit or loss, a revaluation increase is credited to profit or loss with the remaining part of the increase recognised in other comprehensive income. Downward revaluations of land are recognised upon appraisal or impairment testing, with the decrease being charged to other comprehensive income to the extent of any revaluation surplus in equity relating to this asset and any remaining decrease recognised in profit or loss. Any revaluation surplus remaining in equity on disposal of the asset is transferred to retained earnings.

AASB 116.73 (a)
AASB 101.117 (a)

Buildings, IT equipment and other equipment (comprising fittings and furniture) are carried at acquisition cost or manufacturing cost less subsequent depreciation and impairment losses.

Buildings that are leasehold property are also included in property, plant and equipment if they are held under a finance lease. Such assets are depreciated over their expected useful lives (determined by reference to comparable owned assets) or over the term of the lease, if shorter.

AASB 116.73 (b)
AASB 116.73 (c)

Depreciation is recognised on a straight-line basis to write down the cost or valuation less estimated residual value of property, plant and equipment other than freehold land.

The periods generally applicable are:

- Buildings: 25-50 years
- IT equipment: 2-5 years
- Other equipment: 3-12 years.

Material residual value estimates and estimates of useful life are updated as required, but at least annually, whether or not the asset is re-valued.

Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognised in profit or loss within 'other income' or 'other expenses'.

AASB 101.117 (a)
AASB 101.117 (b)

4.14 Leased assets

In accordance with AASB 117 *Leases*, the economic ownership of a leased asset is transferred to the lessee if the lessee bears substantially all the risks and rewards related to the ownership of the leased asset. The related asset is then recognised at the inception of the lease at the fair value of the leased asset or, if lower, the present value of the lease payments plus incidental payments, if any. A corresponding amount is recognised as a finance leasing liability, irrespective of whether some of these lease payments are payable up-front at the date of inception of the lease. Leases of land and buildings are classified separately and are split into a land and a building element, in accordance with the relative fair values of the leasehold interests at the date the asset is recognised initially.

Depreciation methods and useful lives for assets held under finance lease agreements correspond to those applied to comparable assets which are legally owned by the Group. The corresponding finance leasing liability is reduced by lease payments less finance charges, which are expensed as part of finance costs.

The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to profit or loss over the period of the lease.

All other leases are treated as operating leases. Payments on operating lease agreements are recognised as an expense on a straight-line basis over the lease term. Associated costs, such as maintenance and insurance, are expensed as incurred.

4.15 Impairment testing of goodwill, other intangible assets and property, plant and equipment

AASB 101.117 (b)

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level. Goodwill is allocated to those cash-generating units that are expected to benefit from synergies of the related business combination and represent the lowest level within the Group at which management monitors goodwill.

Cash-generating units to which goodwill has been allocated are tested for impairment at least annually. All other individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

AASB 101.122
AASB 101.117 (a)

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount, which is the higher of fair value less costs to sell and value-in-use. To determine the value-in-use, management estimates expected future cash flows from each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Group's latest approved budget, adjusted as necessary to exclude the effects of future reorganisations and asset enhancements. Discount factors are determined individually for each cash-generating unit and reflect their respective risk profiles as assessed by management.

Impairment losses for cash-generating units reduce first the carrying amount of any goodwill allocated to that cash-generating unit. Any remaining impairment loss is charged pro rata to the other assets in the cash-generating unit. With the exception of goodwill, all assets are subsequently reassessed for indications that an impairment loss previously recognised may no longer exist. An impairment charge is reversed if the cash-generating unit's recoverable amount exceeds its carrying amount.

4.16 Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation, and are accounted for using the fair value model.

AASB 140.75 (a)
AASB 140.75 (d)
AASB 140.75 (e)

Investment properties are revalued annually and are included in the statement of financial position at their open market values. These are determined by external professional valuers with sufficient experience with respect to both the location and the nature of the investment property and supported by market evidence.

AASB 101.117 (b)

Any gain or loss resulting from either a change in the fair value or the sale of an investment property is immediately recognised in profit or loss within 'change in fair value of investment property'.

Rental income and operating expenses from investment property are reported within 'revenue' and 'other expenses' respectively, and are recognised as described in notes 4.7 and 4.8.

4.17 Financial instruments

AASB 7.21
AASB 101.117 (b)

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the financial instrument.

AASB 101.117 (b)

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred.

A financial liability is derecognised when it is extinguished, discharged, cancelled or expires.

AASB 101.117 (a)

Financial assets and financial liabilities are measured initially at fair value adjusted by transactions costs, except for financial assets and financial liabilities carried at fair value through profit or loss, which are measured initially at fair value.

Financial assets and financial liabilities are measured subsequently as described below.

AASB 101.117 (a)

Financial assets

For the purpose of subsequent measurement, financial assets other than those designated and effective as hedging instruments are classified into the following categories upon initial recognition:

- loans and receivables
- financial assets at fair value through profit or loss
- held-to-maturity investments
- available-for-sale financial assets.

The category determines subsequent measurement and whether any resulting income and expense is recognised in profit or loss or in other comprehensive income.

AASB 7.B5 (f)

All financial assets except for those at fair value through profit or loss are subject to review for impairment at least at each reporting date. Financial assets are impaired when there is any objective evidence that a financial asset or a group of financial assets is impaired. Different criteria to determine impairment are applied for each category of financial assets, which are described below.

All income and expenses relating to financial assets that are recognised in profit or loss are presented within 'finance costs', 'finance income' or 'other financial items', except for impairment of trade receivables which is presented within 'other expenses'.

AASB 101.117 (a)
AASB 101.117 (b)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial recognition these are measured at amortised cost using the effective interest method, less provision for impairment. Discounting is omitted where the effect of discounting is immaterial. The Group's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments.

AASB 7.B5 (f)

Individually significant receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default. Receivables that are not considered to be individually impaired are reviewed for impairment in groups, which are determined by reference to the industry and region of a counterparty and other shared credit risk characteristics. The impairment loss estimate is then based on recent historical counterparty default rates for each identified group.

AASB 101.117 (a)
AASB 1201.117 (b)
Also:
AASB 7.B5 (a)

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets that are either classified as held for trading or that meet certain conditions and are designated at fair value through profit or loss upon initial recognition. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply (see below).

AASB 7.B5 (e)

Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of derivative financial instruments are determined by reference to active market transactions or using a valuation technique where no active market exists.

AASB 101.117 (a)
AASB 101.117 (b)

Held to maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity other than loans and receivables. Investments are classified as held-to-maturity if the Group has the intention and ability to hold them until maturity. The Group currently holds listed bonds designated into this category.

AASB 7.B5 (f)

Held-to-maturity investments are measured subsequently at amortised cost using the effective interest method. If there is objective evidence that the investment is impaired, determined by reference to external credit ratings, the financial asset is measured at the present value of estimated future cash flows. Any changes to the carrying amount of the investment, including impairment losses, are recognised in profit or loss.

AASB 101.117 (a)
AASB 101.117 (b)
AASB 7.B5 (b)

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets. The Group's available-for-sale financial assets include listed securities and debentures, and the equity investment in XY Ltd.

The equity investment in XY Ltd is measured at cost less any impairment charges, as its fair value cannot currently be estimated reliably. Impairment charges are recognised in profit or loss.

AASB 101.117 (a)
AASB 101.117 (b)

All other available-for-sale financial assets are measured at fair value. Gains and losses are recognised in other comprehensive income and reported within the available-for-sale reserve within equity, except for impairment losses and foreign exchange differences on monetary assets, which are recognised in profit or loss. When the asset is disposed of or is determined to be impaired the cumulative gain or loss recognised in other comprehensive income is reclassified from the equity reserve to profit or loss and presented as a reclassification adjustment within other comprehensive income. Interest calculated using the effective interest method and dividends are recognised in profit or loss within 'finance income' (see note 4.7).

Reversals of impairment losses are recognised in other comprehensive income, except for financial assets that are debt securities which are recognised in profit or loss only if the reversal can be objectively related to an event occurring after the impairment loss was recognised.

AASB 101.117 (b)

Financial liabilities

The Group's financial liabilities include borrowings, trade and other payables and derivative financial instruments.

AASB 101.117 (a)

Financial liabilities are measured subsequently at amortised cost using the effective interest method, except for financial liabilities held for trading or designated at fair value through profit or loss, that are carried subsequently at fair value with gains or losses recognised in profit or loss.

All derivative financial instruments that are not designated and effective as hedging instruments are accounted for at fair value through profit or loss.

AASB 101.117 (a)
AASB 7.B5 (a)

The Group has designated some financial liabilities at fair value through profit or loss to reduce significant measurement inconsistencies between investment properties in the United States and related US-dollar bank loans with fixed interest rates. These investment properties are measured using the fair value model in AASB 140 *Investment Property*. Changes in the fair value of these assets are therefore recognised in profit or loss. The fair value of loans used to finance these assets correlates significantly with the valuation of the investment properties held by the Group, because both measures are highly reactive to the market interest rate for 30-year government bonds. The loans are managed and evaluated on a fair value basis through a quarterly management review in comparison with the property valuations. It is therefore the Group's accounting policy to designate such fixed interest rate loans as at fair value through profit or loss if they are secured by specific investment property assets that are held by the Group. This accounting policy reduces significantly what would otherwise be an accounting mismatch.

AASB 101.117 (b)

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within 'finance costs' or 'finance income'.

AASB 101.117 (b)

Derivative financial instruments

A specific accounting treatment is required for derivatives designated as hedging instruments in cash flow hedge relationships. To qualify for hedge accounting, the hedging relationship must meet several strict conditions with respect to documentation, probability of occurrence of the hedged transaction and hedge effectiveness. All other derivative financial instruments are accounted for at fair value through profit or loss.

AASB 7.22 (a)
AASB 7.22 (c)

For the reporting periods under review, the Group has designated certain forward currency contracts as hedging instruments in cash flow hedge relationships. These arrangements have been entered into to mitigate currency exchange risk arising from certain legally binding sales and purchase orders denominated in foreign currency.

AASB 101.117 (a)

All derivative financial instruments used for hedge accounting are recognised initially at fair value and reported subsequently at fair value in the statement of financial position.

AASB 101.117 (b)

To the extent that the hedge is effective, changes in the fair value of derivatives designated as hedging instruments in cash flow hedges are recognised in other comprehensive income and included within the cash flow hedge reserve in equity. Any ineffectiveness in the hedge relationship is recognised immediately in profit or loss.

At the time the hedged item affects profit or loss, any gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss and presented as a reclassification adjustment within other comprehensive income. However, if a non-financial asset or liability is recognised as a result of the hedged transaction, the gains and losses previously recognised in other comprehensive income are included in the initial measurement of the hedged item.

If a forecast transaction is no longer expected to occur or if the hedging instrument becomes ineffective, any related gain or loss recognised in other comprehensive income is transferred immediately to profit or loss.

AASB 102.36 (a)
AASB 101.117 (a)

4.18 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost includes all expenses directly attributable to the manufacturing process as well as suitable portions of related production overheads, based on normal operating capacity. Costs of ordinarily interchangeable items are assigned using the first in, first out cost formula. Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

AASB 101.117 (a)
AASB 101.117 (b)

4.19 Income taxes

Tax expense recognised in profit or loss comprises the sum of deferred tax and current tax not recognised in other comprehensive income or directly in equity.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, the Australian Taxation Office (ATO) and other fiscal authorities relating to the current or prior reporting periods, that are unpaid at the reporting date. Current tax is payable on taxable profit, which differs from profit or loss in the financial statements. Calculation of current tax is based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred income taxes are calculated using the liability method on temporary differences between the carrying amounts of assets and liabilities and their tax bases. However, deferred tax is not provided on the initial recognition of goodwill, or on the initial recognition of an asset or liability unless the related transaction is a business combination or affects tax or accounting profit. Deferred tax on temporary differences associated with investments in subsidiaries and joint ventures is not provided if reversal of these temporary differences can be controlled by the Group and it is probable that reversal will not occur in the foreseeable future.

AASB 101.117 (a) Deferred tax assets and liabilities are calculated, without discounting, at tax rates that are expected to apply to their respective period of realisation, provided they are enacted or substantively enacted by the end of the reporting period. Deferred tax liabilities are always provided for in full.

AASB 101.122 Deferred tax assets are recognised to the extent that it is probable that they will be able to be utilised against future taxable income. For management's assessment of the probability of future taxable income to utilise against deferred tax assets, see note 4.29.

Deferred tax assets and liabilities are offset only when the Group has a right and intention to set off current tax assets and liabilities from the same taxation authority.

AASB 101.117 (b) Changes in deferred tax assets or liabilities are recognised as a component of tax income or expense in profit or loss, except where they relate to items that are recognised in other comprehensive income (such as the revaluation of land) or directly in equity, in which case the related deferred tax is also recognised in other comprehensive income or equity, respectively.

4.20 Taxation of financial arrangements

Legislation is in place which changes the tax treatment of financial arrangements including the tax treatment of hedging transactions. The Group has assessed the potential impact of these changes on the Group's tax position and these are not considered to be significant. No impact has been recognised and no adjustments have been made to the deferred tax and income tax balances at 30 June 2011 (2010: \$Nil).

4.21 Cash and cash equivalents

AASB 107.46 Cash and cash equivalents comprise cash on hand and demand deposits, together with other short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

4.22 Non-current assets and liabilities classified as held for sale and discontinued operations

AASB 101.117 (a) When the Group intends to sell a non-current asset or a group of assets (a disposal group), and if sale within 12 months is highly probable, the asset or disposal group is classified as 'held for sale' and presented separately in the statement of financial position.

Liabilities are classified as 'held for sale' and presented as such in the statement of financial position if they are directly associated with a disposal group.

AASB 101.117 (b) Assets classified as 'held for sale' are measured at the lower of their carrying amounts immediately prior to their classification as held for sale and their fair value less costs to sell. However, some 'held for sale' assets such as financial assets or deferred tax assets, continue to be measured in accordance with the Group's accounting policy for those assets. No assets classified as 'held for sale' are subject to depreciation or amortisation subsequent to their classification as 'held for sale'.

Any profit or loss arising from the sale or remeasurement of discontinued operations is presented as described in note 4.10.

AASB 101.79 (b) **4.23 Equity, reserves and dividend payments**
Share capital represents the nominal value of shares that have been issued. Any transaction costs associated with the issuing of shares are deducted from share capital, net of any related income tax benefits.

The revaluation reserve within equity comprises gains and losses due to the revaluation of property, plant and equipment. Foreign currency translation differences arising on the translation of the Group's foreign entities are included in the translation reserve (see note 4.6). Gains and losses on certain financial instruments are included in reserves for available-for-sale financial assets and cash-flow hedges respectively (see note 4.17).

Retained earnings include all current and prior period retained profits.

Dividend distributions payable to equity shareholders are included in 'other liabilities' when the dividends have been approved in a general meeting prior to the reporting date.

All transactions with owners of the parent are recorded separately within equity.

AASB 101.117 (b) **4.24 Post employment benefits and short-term employee benefits**
The Group provides post employment benefits through defined benefit plans as well as various defined contribution plans.

A defined contribution plan is a superannuation plan under which the Group pays fixed contributions into an independent entity. The Group has no legal or constructive obligations to pay further contributions after its payment of the fixed contribution. The Group contributes to several plans and insurances for individual employees that are considered defined contribution plans. Contributions to the plans are recognised as an expense in the period that relevant employee services are received.

Plans that do not meet the definition of a defined contribution plan are defined benefit plans. The defined benefit plan sponsored by the Group defines the amount of pension benefit that an employee will receive on retirement by reference to length of service and final salary. The legal obligation for any benefits remains with the Group, even if plan assets for funding the defined benefit plan have been set aside. Plan assets may include assets specifically designated to a long-term benefit fund as well as qualifying insurance policies.

The liability recognised in the statement of financial position for defined benefit plans is the present value of the defined benefit obligation (DBO) at the reporting date less the fair value of plan assets, together with adjustments for unrecognised actuarial gains or losses and past service costs.

AASB 101.117 (a) Management estimates the DBO annually with the assistance of independent actuaries. The estimate of its post-retirement benefit obligations is based on standard rates of inflation, medical cost trends and mortality. It also takes into account the Group's specific anticipation of future salary increases. Discount factors are determined close to each year-end by reference to high quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related pension liability.

AASB 119.120A (a)

Actuarial gains and losses are not recognised as an expense unless the total unrecognised gain or loss exceeds 10% of the greater of the obligation and related plan assets. The amount exceeding this 10% corridor is charged or credited to profit or loss over the employees' expected average remaining working lives. Actuarial gains and losses within the 10% corridor are disclosed separately. Past service costs are recognised immediately in profit or loss, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past service costs are amortised on a straight-line basis over the vesting period.

Interest expenses related to pension obligations are included in 'finance costs' in profit or loss. Return on plan assets is included in 'other financial items'. All other post employment benefit expenses are included in 'employee benefits expense'.

Short-term employee benefits, including annual leave entitlement, are current liabilities included in 'employee benefits', measured at the undiscounted amount that the Group expects to pay as a result of the unused entitlement.

4.25 Share-based employee remuneration

AASB 101.117 (b)

The Group operates equity-settled share-based remuneration plans for its employees. None of the Group's plans feature any options for a cash settlement.

AASB 101.117 (a)

All goods and services received in exchange for the grant of any share-based payment are measured at their fair values. Where employees are rewarded using share-based payments, the fair values of employees' services are determined indirectly by reference to the fair value of the equity instruments granted. This fair value is appraised at the grant date and excludes the impact of non-market vesting conditions (for example profitability and sales growth targets and performance conditions).

All share-based remuneration is ultimately recognised as an expense in profit or loss with a corresponding credit to 'share option reserve'.

If vesting periods or other vesting conditions apply, the expense is allocated over the vesting period, based on the best available estimate of the number of share options expected to vest. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. Estimates are subsequently revised if there is any indication that the number of share options expected to vest differs from previous estimates. Any cumulative adjustment prior to vesting is recognised in the current period. No adjustment is made to any expense recognised in prior periods if share options ultimately exercised are different to that estimated on vesting.

Upon exercise of share options, the proceeds received net of any directly attributable transaction costs up are allocated to share capital.

AASB 101.117 (b)

4.26 Provisions, contingent liabilities and contingent assets

Provisions are recognised when present obligations as a result of a past event will probably lead to an outflow of economic resources from the Group and amounts can be estimated reliably. Timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive commitment that has resulted from past events, for example, product warranties granted, legal disputes or onerous contracts. Restructuring provisions are recognised only if a detailed formal plan for the restructuring has been developed and implemented, or management has at least announced the plan's main features to those affected by it. Provisions are not recognised for future operating losses.

AASB 101.117 (a)

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the reporting date, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Provisions are discounted to their present values, where the time value of money is material.

Any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision.

All provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

AASB 101.117 (a)

In those cases where the possible outflow of economic resources as a result of present obligations is considered improbable or remote, no liability is recognised, unless it was assumed in the course of a business combination (see note 4.4). In a business combination, contingent liabilities are recognised on the acquisition date when there is a present obligation that arises from past events and the fair value can be measured reliably, even if the outflow of economic resources is not probable. They are subsequently measured at the higher amount of a comparable provision as described above and the amount recognised on the acquisition date, less any amortisation.

Possible inflows of economic benefits to the Group that do not yet meet the recognition criteria of an asset are considered contingent assets.

Interpretation 1031

4.27 Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST components of investing and financing activities, which are disclosed as operating cash flows.

ASIC Class Order
98/100
AASB 101.51 (e)

4.28 Rounding of Amounts

The parent entity has applied the relief available to it under ASIC Class Order 98/100 and accordingly, amounts in the financial statements and directors' report have been rounded off to the nearest \$1,000.

AASB 101.122

4.29 Significant management judgement in applying accounting policies

The following are significant management judgements in applying the accounting policies of the Group that have the most significant effect on the financial statements. Critical estimation uncertainties are described in note 4.30.

Revenue

The Group commits to extensive after-sales support in its service segment. The amount of the selling price associated with the subsequent servicing agreement is deferred and recognised as revenue over the period during which the service is performed. The nature of services provided depends on the customers use of the products. Therefore management needs to exercise significant judgement in determining when to recognise income from after-sales services. In particular, this considers historical experience and requires knowledge of the customers and the markets in which the Group operates.

Construction contract revenue

The stage of completion of any construction contract is assessed by management by taking into consideration all information available at the reporting date. In this process management exercises significant judgement about milestones, actual work performed and the estimated costs to complete the work. Further information on the Group's accounting policy for construction contracts is provided in note 4.7.

Internally generated software and research costs

Management monitors progress of internal research and development projects by using a project management system. Significant judgement is required in distinguishing research from the development phase. Development costs are recognised as an asset when all the criteria are met, whereas research costs are expensed as incurred.

To distinguish any research-type project phase from the development phase, it is the Group's accounting policy to also require a detailed forecast of sales or cost savings expected to be generated by the intangible asset. The forecast is incorporated into the Group's overall budget forecast as the capitalisation of development costs commences. This ensures that managerial accounting, impairment testing procedures and accounting for internally-generated intangible assets are based on the same data.

Management also monitors whether the recognition requirements for development costs continue to be met. This is necessary as the economic success of any product development is uncertain and may be subject to future technical problems after the time of recognition.

Leases

In applying the classification of leases in AASB 117, management considers its leases of IT equipment as well as its main warehouse facilities as finance lease arrangements. In some cases, the lease transaction is not always conclusive, and management uses judgement in determining whether the lease is a finance lease arrangement that transfers substantially all the risks and rewards incidental to ownership.

Deferred tax assets

The assessment of the probability of future taxable income in which deferred tax assets can be utilised is based on the Group's latest approved budget forecast, which is adjusted for significant non-taxable income and expenses and specific limits to the use of any unused tax loss or credit. The tax rules in the numerous jurisdictions in which the Group operates are also carefully taken into consideration. If a positive forecast of taxable income indicates the probable use of a deferred tax asset, especially when it can be utilised without a time limit, that deferred tax asset is usually recognised in full. The recognition of deferred tax assets that are subject to certain legal or economic limits or uncertainties is assessed individually by management based on the specific facts and circumstances.

Held-to-maturity investments

Management has confirmed its intention and ability to hold the bonds that are classified as held-to-maturity investments until they mature. This is based on the Group's current liquidity and capital maintenance requirements and plans.

4.30 Estimation uncertainty

AASB 101.125

When preparing the financial statements management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses.

The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

Information about significant judgements, estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below.

Impairment

An impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount. To determine the recoverable amount, management estimates expected future cash flows from each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows (see note 4.15). In the process of measuring expected future cash flows management makes assumptions about future operating results. These assumptions relate to future events and circumstances. The actual results may vary, and may cause significant adjustments to the Group's assets within the next financial year.

In most cases, determining the applicable discount rate involves estimating the appropriate adjustment to market risk and the appropriate adjustment to asset-specific risk factors.

The Group has incurred an impairment loss of \$799,000 on goodwill in 2011 (2010: \$190,000) for its Telco Consult unit in order to reduce the carrying amount of goodwill to its recoverable amount (see note 9). If the discount rate of the Group's Telco Consult unit was increased by 1% a further impairment loss of \$300,000 would have to be recognised, of which \$245,000 would be written off against goodwill and \$55,000 against property, plant and equipment.

Business combinations

On initial recognition, the assets and liabilities of the acquired business and the consideration paid for them are included in the consolidated financial statements at their fair values. In measuring fair value, management uses estimates of future cash flows and discount rates. Any subsequent change in these estimates would affect the amount of goodwill if the change qualifies as a measurement period adjustment. Any other change would be recognised in the statement of comprehensive income in the subsequent period. Details of acquired assets and liabilities assumed are given in note 5.

Useful lives of depreciable assets

Management reviews the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets to the Group. The carrying amounts are analysed in notes 10 and 11. Actual results, however, may vary due to technical obsolescence, particularly relating to software and IT equipment.

Construction contract revenue

The carrying amount of construction contracts of \$1,374,000 (2010: \$974,000; 2009: \$670,000), and revenue recognised from construction contracts, reflect management's best estimate about each contract's outcome and stage of completion. Management assesses the profitability of ongoing construction contracts and the order backlog at least monthly, using extensive project management procedures. For more complex contracts in particular, costs to complete and contract profitability are subject to significant estimation uncertainty.

Inventories

Inventories are measured at the lower of cost and net realisable value. In estimating net realisable values, management takes into account the most reliable evidence available at the times the estimates are made. The Group's core business is subject to technology changes which may cause selling prices to change rapidly. Moreover, future realisation of the carrying amounts of inventory assets of \$18,548,000 (2010: \$17,376,000; 2009: \$18,671,000) is affected by price changes in different market segments.

Defined benefit liability

Management estimates the defined benefit liability annually with the assistance of independent actuaries; however, the actual outcome may vary due to estimation uncertainties. The defined benefit liability of \$12,470,000 (2010: \$12,005,000; 2009: \$11,298,000) is based on standard rates of inflation, medical cost trends and mortality. It also takes into account the Group's specific anticipation of future salary increases. Discount factors are determined close to each year-end by reference to high quality corporate bonds that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related pension liability. Estimation uncertainties exist particularly with regard to medical cost trends (analysis given in note 21.3), which may vary significantly in future appraisals of the Group's defined benefit obligations.

Fair value of financial instruments

Management uses valuation techniques in measuring the fair value of financial instruments where active market quotes are not available. Details of the assumptions used are given in the note 14. In applying the valuation techniques management makes maximum use of market inputs, and uses estimates and assumptions that are, as far as possible, consistent with observable data that market participants would use in pricing the instrument. Where applicable data is not observable, management uses its best estimate about the assumptions that market participants would make. These estimates may vary from the actual prices that would be achieved in an arm's length transaction at the reporting date.

Provisions

The Group is currently defending certain lawsuits where the actual outcome may vary from the amount recognised in the financial statements. None of the provisions will be discussed here in further detail so as not to seriously prejudice the Group's position in the related disputes.

The amount recognised for warranties for which customers are covered for the cost of repairs is estimated based on management's past experience and the future expectations of defects.

Other liabilities

The amount recognised for deferred service income of \$2,123,000 (2010: \$2,291,000; 2009: \$2,512,000) has been estimated by management after observation of the services actually performed and detailed consideration of the types of service arrangements entered into. However, the actual outcome may vary due to unexpected changes in the pattern of services performed.

5 Acquisitions and disposals

5.1 Acquisition of Goodtech GmbH in 2010

AASB 3.B64 (a-d)

On 30 September 2010, the Group acquired 100% of the equity instruments of Goodtech GmbH (Goodtech), a Hamburg based business, thereby obtaining control. The acquisition was made to enhance the Group's position in the retail market for computer and telecommunications hardware in Australia. Goodtech is a significant business in the Group's targeted market.

The details of the business combination are as follows:

		\$'000
AASB 3.B64 (f)	Fair value of consideration transferred	
AASB 3.B64 (f)(i)	Amount settled in cash	16,058
AASB 3.B64 (f)(iii)	Fair value of contingent consideration	600
AASB 107.40(a)	Total	<u>16,658</u>
AASB 3.B64(i)	Recognised amounts of identifiable net assets	
AASB 107.40(d)	Property, plant and equipment	4,622
	Intangible assets	5,255
	Investments accounted for using the equity method	345
	Investment property	75
	Total non-current assets	<u>10,297</u>
	Inventories	8,995
	Trade and other receivables	7,792
	Cash and cash equivalents	567
	Total current assets	<u>17,354</u>
	Borrowings	(3,478)
	Deferred tax liabilities	(632)
	Total non-current assets	<u>(4,110)</u>
	Provisions	(1,320)
	Other liabilities	(2,312)
	Trade and other payables	(5,689)
	Total non-current liabilities	<u>(9,321)</u>
	Identifiable net assets	<u>14,220</u>
	Goodwill on acquisition	<u>2,438</u>
AASB 107.40(b)	Consideration transferred settled in cash	16,058
AASB 107.40(c)	Cash and cash equivalents acquired	(567)
AASB 107.42	Net cash outflow on acquisition	<u>15,491</u>
	Acquisition costs charged to expenses	223
	Net cash paid relating to the acquisition	<u>15,714</u>

AASB 3.B64(f)(i)	<p>Consideration transferred</p> <p>The acquisition of Goodtech was settled in cash of \$16,058,000.</p>
AASB 3.B64(g)(i-iii) AASB 3.B67(b)(i-iii)	<p>The purchase agreement included an additional consideration of \$1,310,000, payable only if the average profits of Goodtech for 2011 and 2012 exceed a target level agreed by both parties. The additional consideration will be paid on 1 October 2012. The \$600,000 fair value of the contingent consideration liability initially recognised represents the present value of the Group's probability-weighted estimate of the cash outflow. It reflects management's estimate of a 50% probability that the targets will be achieved and is discounted using an interest rate of 4.4%. As at 30 June 2011, there have been no changes in the estimate of the probable cash outflow but the liability has increased to \$620,000 due to the unwinding of the discount</p>
AASB 3.B64(m)	<p>Acquisition-related costs amounting to \$223,000 are not included as part of consideration transferred and have been recognised as an expense in the consolidated statement of comprehensive income, as part of 'other expenses.'</p>
AASB 3.B64(h)(i-iii)	<p>Identifiable net assets</p> <p>The fair value of the trade and other receivables acquired as part of the business combination amounted to \$7,792,000, with a gross contractual amount of \$7,867,000. As of the acquisition date, the Group's best estimate of the contractual cash flow not expected to be collected amounted to \$75,000.</p>
AASB 3.67(e) AASB 136.133 AASB 3.B64(k)	<p>Goodwill</p> <p>Goodwill of \$2,438,000 is primarily related to growth expectations, expected future profitability, the substantial skill and expertise of Goodtech's workforce and expected cost synergies. Goodwill has been allocated to cash-generating units at 30 June 2011. The goodwill that arose from this business combination is not expected to be deductible for tax purposes.</p>
AASB 3.B64 (q)(i-iii)	<p>Goodtech's contribution to the Group results</p> <p>Goodtech incurred a loss of \$20,000 for the 9 months from 30 September 2010 to the reporting date, primarily due to integration costs. If Goodtech had been acquired on 1 July 2010, revenue of the Group for 2011 would have been \$212 million, and profit for the year would have increased by \$350,000.</p>

8 The determination of the acquisition-date fair value of the contingent consideration should consider the expected outcome of the contingency. This example illustrates one possible approach in estimating the fair value of contingent consideration.

5.2 Disposal of Highstreet Ltd

On 31 March 2011, the Group disposed of its 100% equity interest in its subsidiary, Highstreet Ltd. The subsidiary was classified as held for sale in the 2010 financial statements (see note 19).

AASB 107.40(d)
 AASB 107.40(b) The consideration was received in 2011. The carrying amount of the net assets of Highstreet Ltd recognised at the date of disposal (31 March 2011) were as follows:

		Date of disposal
		\$'000
	Property, plant and equipment	2,475
	Total non-current assets	<u>2,475</u>
	Inventories	1,121
AASB 107.40(c)	Cash and cash equivalents	-
	Total current assets	<u>1,121</u>
	Provisions	(232)
	Borrowings	(8)
	Trade and other payables	(210)
	Total current liabilities	<u>(450)</u>
	Total net assets	<u>3,146</u>
AASB 107.40(a)	Total consideration received in cash	3,117
	Cash and cash equivalents disposed of	-
AASB 107.42	Net cash received	<u>3,117</u>

5.3 Acquisition of Good Buy Inc

AASB 3.66
 AASB 3.B64(a)
 AASB 3.B64(b)
 AASB 3.B64(c) On 31 December 2009, the Group acquired 100% of the equity instruments of Good Buy Inc (Good Buy), a Delaware (USA) based business. The acquisition of Good Buy was made to enhance the Group's position as a retailer for computer and telecommunication hardware in the US market.

AASB 107.40(a)
 AASB 107.40(b) The total cost of acquisition includes the components stated below:

AASB 3.B64(f)	Fair Value of consideration	\$'000
	Purchase price, settled in cash	<u>12,421</u>
	Total cost of acquisition	<u>12,421</u>

AASB 3.B64(i) The allocation of the purchase price to the assets and liabilities of Good Buy was completed in 2010. The amounts recognised at the acquisition date for each class of the acquiree's assets, liabilities and contingent liabilities are as follows:

AASB 107.40(d)		\$'000
	Property, plant and equipment	3,148
	Intangible assets	3,005
	Total non-current assets	<u>6,153</u>
	Inventories	5,469
	Trade and other receivables	5,200
AASB 107.40(c)	Cash and cash equivalents	345
	Total current assets	<u>11,014</u>
	Deferred tax liabilities	<u>(435)</u>
	Non-current liabilities	<u>(435)</u>
	Provisions and contingent liabilities	(1,234)
	Other liabilities	(657)
	Trade and other payables	(4,989)
	Total current liabilities	<u>(6,880)</u>
	Net identifiable assets and liabilities	<u>9,852</u>
	Goodwill on acquisition	<u>2,569</u>
	Cost on acquisition, satisfied in cash	12,421
AASB 107.40(c)	Cash and cash equivalents acquired	<u>(345)</u>
AASB 107.42	Net cash outflow on acquisition	<u>12,076</u>
AASB 107.40(b)	Consideration transferred settled in cash	12,421
AASB 107.40(c)	Cash and cash equivalents acquired	<u>(345)</u>
AASB 107.42	Net cash outflow on acquisition	12,076
	Acquisition costs charged to expenses	<u>76</u>
	Net cash paid relating to the acquisition	<u>12,152</u>

Disclosure of the carrying amounts of the acquiree's assets and liabilities immediately before the combination in accordance with IFRS was impracticable. Good Buy had not applied IFRS prior to its acquisition as at 30 June 2009. Therefore, essential data needed for pro-forma IFRS accounts of Good Buy prior to the date of acquisition was not available.

AASB 3.B64(m) Acquisition-related costs amounting to \$76,000 are not included as part of consideration transferred and have been recognised as an expense in the consolidated statement of comprehensive income, as part of 'other expenses.'

AASB 3.63 No major line of business will be disposed of as a result of the acquisition.

AASB 3.B64(e) A significant part of the acquisition costs can be attributed to the sales force and the sales know-how of key personnel of Good Buy. At the acquisition date however, no intangible asset qualified for separate recognition in this respect. These circumstances contributed to the amount recognised as goodwill. All goodwill arising on the business combination had been allocated to cash-generating units by 30 June 2010.

AASB 136.133

AASB 3.B64(q(iii))

Good Buy contributed \$400,000 to the consolidated profit for the 6 months from 1 January 2010 to 30 June 2010. If Good Buy had been acquired on 1 July 2009, revenue of the Group for 2010 would have been \$196 million. However, due to a lack of IFRS-specific data prior to the acquisition of Good Buy, pro-forma profit or loss of the combined entity for the complete 2010 reporting period cannot be determined reliably.

6 Jointly controlled entities

AASB 131.56

Halftime Ltd is the only jointly controlled entity within the Group and the ownership percentage is 50%. Its financial statements have been incorporated into the consolidated financial statements using the proportionate consolidation method. The aggregate amounts relating to Halftime Ltd are as follows:

	2011	2010	2009
	\$'000	\$'000	\$'000
Non-current assets	300	250	245
Current assets	310	190	189
Total assets	<u>610</u>	<u>440</u>	<u>434</u>
Non-current liabilities	(50)	(40)	(45)
Current liabilities	(150)	(125)	(129)
Total liabilities	<u>(200)</u>	<u>(165)</u>	<u>(174)</u>
Income	400	389	385
Expenses	<u>(320)</u>	<u>(321)</u>	<u>(322)</u>

AASB 131.54
 AASB 131.55

The Group has not incurred any contingent liabilities or other commitments relating to its joint venture.

7 Investments in associates

AASB 128.37(c)

The Group holds a 25% voting and equity interest in Equipe Consultants S.A. which provides support to the Group's consulting activities. As from 30 September 2010 the Group holds a 30% voting and equity interest in Shopmore GmbH, acquired through acquisition of Goodtech (see note 5.1). The investments are accounted for under the equity method. Both associates have a reporting date of 30 June.

AASB 128.37(a)

The shares are not publicly listed on a stock exchange and hence published price quotes are not available. The aggregate amounts of certain financial information of the associates can be summarised as follows:

AASB 128.37(b)

	2011	2010	2009
	\$'000	\$'000	\$'000
Assets	4,698	470	408
Liabilities	(3,247)	(380)	(365)
Revenues	1,710	560	510
Profit (loss)	256	49	(10)
Profit attributable to the Group	60	12	(2)

AASB 128.37(f) Dividends are subject to the approval of at least 51% of all shareholders of the associates. During 2010 and 2011 the Group received no dividends.

AASB 128.40 The Group has not incurred any contingent liabilities or other commitments relating to its investments in associates.

8 Revenue

AASB118.35(b) The Group's revenue may be analysed as follows for each major product and service category (excluding revenue from discontinued operations):

	2011 \$'000	2010 \$'000
Sale of hardware	47,585	39,145
Sale of software	24,513	20,165
Other	4,079	4,121
AASB 118.35(b)(i) Sale of goods	76,177	63,431
After-sales service and maintenance	18,140	17,832
Consulting	59,837	60,116
AASB 111.39(a) Construction contracts for telecommunications solutions	50,973	49,186
AASB 140.75(f) Rental income	1,066	1,028
AASB 118.35(b)(ii) Rendering of services	130,016	128,162
Group revenue	206,193	191,593

9 Goodwill

AASB 3.B67(d) The main changes in the carrying amounts of goodwill result from the acquisition of Good Buy in 2010 and Goodtech in 2011. The net carrying amount of goodwill can be analysed as follows:

	2011 \$'000	2010 \$'000	2009 \$'000
AASB 3.B67(d) Gross carrying amount			
AASB 3.B67(d)(i) Balance 1 July	3,727	1,234	1,234
AASB 3.B67(d)(ii) Acquired through business combination	2,438	2,569	-
AASB 3.B67(d)(vi) Net exchange difference	(135)	(76)	-
AASB 3.B67(d)(viii) Balance 30 June	6,030	3,727	1,234
AASB 3.B67(d)(i) Accumulated impairment			
AASB 3.B67(d)(i) Balance 1 July	(190)	-	-
AASB 3.B67(d)(v) Impairment loss recognised	(799)	(190)	-
AASB 3.B67(d)(vi) Net exchange difference	-	-	-
AASB 3.B67(d)(viii) Balance 30 June	(989)	(190)	-
Carrying amount at 30 June	5,041	3,537	1,234

AASB 136.134 For the purpose of annual impairment testing goodwill is allocated to the following cash-generating units, which are the units expected to benefit from the synergies of the business combinations in which the goodwill arises.

	2011 \$'000	2010 \$'000	2009 \$'000
Online retailing, Australia	2,388	-	-
AASB 136.134(a) Online retailing, USA	2,408	2,493	-
Telco Consult	245	1,044	1,234
Goodwill allocation at 30 June	5,041	3,537	1,234

AASB 136.134(c)
 AASB 136.134(d)

The recoverable amounts of the cash-generating units were determined based on value-in-use calculations, covering a detailed three-year forecast, followed by an extrapolation of expected cash flows for the units' remaining useful lives using the growth rates stated below. The growth rates reflect the long-term average growth rates for the product lines and industries of the cash-generating units. The growth rate for online retailing exceeds the overall long-term average growth rates for Australia. This is appropriate because this sector is expected to continue to grow at above-average rates for the foreseeable future.

AASB 136.134(d)(iv)
 AASB 136.134(d)(v)

	Growth Rates			Discount Rates		
	2011	2010	2009	2011	2010	2009
Online retailing, Australia	3.1%	-	-	9.0%	-	-
Online retailing, USA	3.0%	3.0%	-	9.5%	9.5%	-
Telco Consult	0.1%	0.5%	2.4%	10.9%	10.1%	9.5%

AASB 136.134(d)(i)
 AASB 136.134(d)(ii)

Online retailing (Australia and USA)

Management's key assumptions for the online retailing unit include stable profit margins, which have been determined based on past experience in this market. The Group's management believes that this is the best available input for forecasting this mature market.

AASB 136.130(a)
 AASB 136.130(d)

Telco Consult

The forecast for the Telco Consult unit was adjusted in 2010 for the decline of consulting services related to conventional telecommunication solutions. This market shifted considerably towards internet and intranet based solutions during 2010. This development continued in 2011. Impairment testing, taking into account these latest developments, resulted in the further reduction of goodwill in 2011 to the recoverable amount of the cash-generating unit.

AASB 136.126(a)
 AASB 136.129(a)
 AASB 136.130(b) and
 (d)(i)

The related goodwill impairment loss of \$799,000 in 2011 (2010: \$190,000) was included within 'depreciation, amortisation and impairment of non-financial assets' and is allocated to the consulting segment.

AASB 136.134(d)(i)
 AASB 136.134(d)(ii)

As a result of the developments in this unit during 2011 and 2010, management expects lower growth and moderately declining profit margins for this unit.

AASB 136.134(f)
 AASB 101.125

Apart from the considerations described in determining the value-in-use of the cash-generating units described above, management is not currently aware of any other probable changes that would necessitate changes in its key estimates. However, the estimate of recoverable amount for the Telco Consult unit is particularly sensitive to the discount rate. The impact from a reasonable change in discount rate is assessed in note 4.30 together with other estimation uncertainty.

10 Other intangible assets

The Group's other intangible assets comprise acquired software licences, own software developments, brand names and customer lists. The carrying amounts for the reporting periods under review can be analysed as follows:

	Acquired software licenses \$'000	Internally generated software \$'000	Brand names \$'000	Customer lists \$'000	Total \$'000	
AASB 138.118	Gross carrying amount					
	Balance at 1 July 2010	13,608	14,794	760	374	29,536
AASB 138.118(e)(i)	Addition, separately acquired	440	-	-	-	440
	Addition, internally developed	-	3,306	-	-	3,306
	Acquisition through business combination	3,653	-	215	1,387	5,255
AASB 138.118(e)(ii)	Disposals	(1,159)	-	-	-	(1,159)
AASB 138.118(e)(vii)	Net exchange differences	(73)	(54)	-	-	(127)
	Balance at 30 June 2011	16,469	18,046	975	1,761	37,251
	Amortisation and impairment					
	Balance at 1 July 2010	(6,063)	(9,381)	(162)	(89)	(15,695)
AASB 138.118(e)(vi)	Amortisation	(1,978)	(1,315)	(125)	(110)	(3,258)

AASB 138.126 Additions to research and development costs include capitalised borrowing costs of \$80,000 (2010: \$78,000). In addition to development costs capitalised, the Group expensed as 'other expenses' \$1,690,000 of research and development costs during the year (2010: \$1,015,000).

AASB138.122(e) During the year the Group entered into an agreement to acquire enterprise resource planning software, to support the administration and control of the Group. Minimum contractual commitments resulting from this agreement are \$97,000 payable during 2012. No other material contractual commitments were entered into during 2011 or 2010.

AASSB 136.130(a) One internally generated software product was subject to impairment testing during 2011 as the market in telecommunication consulting shifted considerably towards inter- and intranet based solutions. The impairment loss amounted to \$870,000 (2010: \$Nil). The impaired asset was designed to support the implementation and customisation of installed telecommunication equipment and remote maintenance of these systems. The recoverable amount of the asset is its value-in-use (see note 9 for discount rates). This intangible asset has been allocated to the consulting segment.

AASB 136.130(c)(ii)

AASB 138.118(d)
 AASB 136.126(a)
 AASB 138.122(d) All amortisation and impairment charges (or reversals if any) are included within 'depreciation, amortisation and impairment of non-financial assets'. No intangible assets have been pledged as security for liabilities.

11 Property, plant and equipment

The Group's property, plant and equipment comprise land, buildings, IT equipment and other equipment primarily comprising fittings and furniture. The carrying amount can be analysed as follows:

		Land \$'000	Buildings \$'000	IT equipment \$'000	Other equipment \$'000	Total \$'000
Gross carrying amount						
AASB 116.73(d)	Balance 1 July 2010	7,697	19,362	5,579	2,594	35,232

AASB 116.77(a)
 AASB 116.77(b)
 AASB 116.77(c)
 AASB 116.77(d)

The Group's land was re-valued on 23 April 2011 by independent valuers. The land was previously re-valued in April 2009. Fair values were estimated based on recent market transactions, which were then adjusted for specific conditions relating to the land.

The value of land recognised upon the acquisition of Goodtech (see note 5.1) was \$730,000. This land was not re-valued to fair value at the reporting date as management determined that the effect of changes in market prices between the acquisition and reporting dates is immaterial.

AASB 116.77(e)
 AASB 116.77(f)

If the cost model had been used, the carrying amounts of the re-valued land, including the fair value adjustment upon acquisition of Goodtech, would be \$7,421,000 (2010 and 2009: \$6,712,000).

AASB 136.126(a)
 AASB 136.126(b)

All depreciation and impairment charges (or reversals if any) are included within 'depreciation, amortisation and impairment of non-financial assets'.

AASB 116.74(a)

The Group's land and buildings have been pledged as security for 'other bank borrowings' (see note 14.5).

AASB 116.74(c)

The Group has a contractual commitment to acquire IT equipment of \$1,304,000 payable in 2012. In 2011 or 2010 there were no other material contractual commitments.

12 Leases

12.1 Finance leases as lessee

AASB 117.31(a)

The Group's main warehouse and related facilities are held under a finance lease arrangement. The net carrying amount of the assets held under the lease is \$3,362,000 (2010: \$3,723,000; 2009: \$4,151,000). The assets are included under 'buildings' which form an integral part of 'property, plant and equipment' (see note 11).

Furthermore, the Group has leased IT equipment under finance lease arrangements. \$231,000 of the net carrying amount recognised as 'IT equipment' (see note 11) relates to leased IT equipment (2010: \$480,000; 2009: \$589,000).

Finance lease liabilities (see note 23) are secured by the related assets held under finance leases.

Future minimum finance lease payments at the end of each reporting period under review were as follows:

		Minimum lease payments due			
		Within 1	After 5		
		year	1 to 5 years	years	Total
		\$'000	\$'000	\$'000	\$'000
30 June 2011					
AASB 117.31(b)	Lease payments	727	1,415	3,539	5,681
	Finance charges	(215)	(330)	(528)	(1,073)
	Net present values	512	1,085	3,011	4,608
30 June 2010					
AASB 117.31(b)	Lease payments	726	1,432	4,072	6,230
	Finance charges	(220)	(336)	(560)	(1,116)
	Net present values	506	1,096	3,512	5,114
30 June 2009					
AASB 117.31(b)	Lease payments	828	1,429	4,531	6,788
	Finance charges	(230)	(337)	(621)	(1,188)
	Net present values	598	1,092	3,910	5,600

AASB 117.31(e)

The lease agreement for the main warehouse includes fixed lease payments and a purchase option at the end of the 10 year lease term. The agreement is non-cancellable but does not contain any further restrictions.

AASB 117.31(c-d)

No contingent rents were recognised as an expense in the reporting periods under review, and no future sublease income is expected to be received as all assets are used exclusively by the Group.

12.2 Operating leases as lessee

The Group's future minimum operating lease payments are as follows:

		Minimum lease payments due			
		Within 1		After 5	
		year	1 to 5 years	years	Total
		\$'000	\$'000	\$'000	\$'000
AASB 117.35(a)	30 June 2011	4,211	12,567	25,678	42,456
	30 June 2010	3,431	12,100	24,342	39,873
	30 June 2009	3,362	11,858	23,855	39,075
AASB 117.35(c) AASB 117.35(b)	Lease payments recognised as an expense during the period amount to \$3,568,000 (2010: \$3,398,000). This amount consists of minimum lease payments. No sublease payments or contingent rent payments were made or received. No sublease income is expected as all assets held under lease agreements are used exclusively by the Group.				
AASB 117.35(d)	The rental contract for the office and production building rented since 1 December 2002 at Great Place 152, Smallville has a non-cancellable term of 15 years. The building was subject to a sale and lease back transaction in 2002. A related gain was included in 'other liabilities' and is being amortised over the remaining non-cancellable lease term (see also note 24).				
AASB 117.35(d)	The Group's operating lease agreements do not contain any contingent rent clauses. None of the operating lease agreements contain renewal or purchase options or escalation clauses or any restrictions regarding dividends, further leasing or additional debt.				

12.3 Operating leases as lessor

The Group leases out investment properties on operating leases. Details of the leases are given in note 13.

13 Investment property

Investment property includes real estate properties in the surrounding area of the Group's headquarters and in the United States, which are owned to earn rentals and capital appreciation.

AASB 140.75(d) The fair values of investment properties were estimated using observable data on recent transactions and rental yields for similar properties.

Changes to the carrying amounts presented in the statement of financial position can be summarised as follows:

		\$'000
AASB 140.76	Carrying amount 1 July 2008	12,030
AASB 140.76(e)	Net exchange differences	10
AASB 140.76(d)	Net gain (loss) from fair value adjustments	62
AASB 140.76	Carrying amount 30 June 2009	<u>12,102</u>
AASB 140.76(e)	Net exchange differences	25
AASB 140.76(d)	Net gain (loss) from fair value adjustments	150
AASB 140.76	Carrying amount 30 June 2010	<u>12,277</u>
	Additions:	
AASB 140.76(b)	- through business combinations	75
AASB 140.76(e)	Net exchange differences	22
AASB 140.76(d)	Net gain (loss) from fair value adjustments	288
AASB 140.76	Carrying amount 30 June 2011	<u>12,662</u>

AASB 140.75(g) Investment properties valued at \$8,327,000 are pledged as security for related borrowings.

AASB 140.75(f)
 AASB 117.56(b) Rental income for 2011 amounts to \$1,066,000 (2010: \$1,028,000) included within 'revenue'. No contingent rents were recognised. Direct operating expenses of \$213,000 (2010: \$206,000) were reported within 'other expenses', of which \$18,000 (2010: \$12,000) was incurred on vacant properties that did not generate rental income in 2011.

AASB 117.56(c)
 AASB 117.56(a) The properties are all leased out on operating leases. The lease contracts are all non-cancellable for 8 years from the commencement of the lease. Future minimum lease rentals are as follows:

		Minimum lease payments due			
		Within 1 year	1 to 5 years	After 5 years	Total
		\$'000	\$'000	\$'000	\$'000
AASB 117.56(a)	30 June 2011	1,075	5,375	2,090	8,540
	30 June 2010	1,030	5,150	1,978	8,158
	30 June 2009	1,009	5,047	1,938	7,994

14 Financial assets and liabilities

14.1 Categories of financial assets and liabilities

The carrying amounts presented in the statement of financial position relate to the following categories of assets and liabilities:

	Notes	2011 \$'000	2010 \$'000	2009 \$'000	
Financial assets					
AASB 7.8(b)	Held-to-maturity investments				
	Bonds	14.2	2,814	2,992	3,124
AASB 7.8(d)	Available-for-sale financial assets				
	Securities and debentures	14.2	951	888	1,203
AASB 7.8(a)(ii)	Financial assets held for trading (carried at fair value through profit or loss)				
	Other short-term financial assets	14.3	655	649	631
	Derivative financial instruments	14.4	115	212	178
			770	861	809
AASB 7.7	Derivatives designated as cash flow hedging instruments (carried at fair value)				
	Derivative financial instruments	14.4	467	-	312
AASB 7.8(c)	Loans and receivables				
	Trade and other receivables	17	30,945	23,441	18,873
	Cash and cash equivalents	18	34,789	11,237	10,007
			65,734	34,678	28,880
Financial liabilities					
AASB 7.8(e)(i)	Financial liabilities designated at fair value through profit or loss:				
	Non current borrowings	14.5	7,700	7,965	8,105
	Current borrowings	14.5	250	255	275
			7,950	8,220	8,380
AASB 7.8(f)	Financial liabilities measured at amortised cost:				
	Non current:				
	Borrowings	14.5	13,300	13,300	13,300
	Current:				
	Borrowings	14.5	4,565	3,124	3,543
	Trade and other payables	23	8,547	6,590	7,104
			26,412	23,014	23,947
AASB 7.7	Derivatives designated as cash flow hedging instruments (carried at fair value)				
	Derivative financial instruments	14.4	-	160	-

AASB 7.27(a)
 AASB 7.33

See note 4.17 for a description of the accounting policies for each category of financial instruments. Information relating to fair values are presented in the related notes. The methods used to measure fair value are described in note 14.6. A description of the Group's financial instrument risk, including risk management objectives and policies is given in note 34.

14.2 Other long-term financial assets

Other long-term financial assets include the following investments:

	2011	2010	2009
	\$'000	\$'000	\$'000
AASB 7.8(b)	Held-to-maturity investments:		
	2,814	2,992	3,124
AASB 7.8(d)	Available-for-sale financial assets:		
	951	888	1,203
	3,765	3,880	4,327

AASB 7.7

Bonds

Held-to-maturity financial assets comprise zero coupon and US straight bonds with fixed interest rates between 5.5 and 6.2%. They mature in 2012 and 2013. The carrying amounts, measured at amortised cost, and fair values of these financial assets are as follows:

	2011	2010	2009
	\$'000	\$'000	\$'000
AASB 7.8(b)	Carrying amount at amortised cost:		
	1,110	1,189	1,250
	1,704	1,803	1,874
AASB 7.8(b)	2,814	2,992	3,124
	Fair value:		
AASB 7.25	1,190	1,186	1,246
	1,705	1,809	1,750
	2,895	2,995	2,996

AASB 7.27(a)
 AASB 7.27(b)

These bonds are publicly traded, and fair values have been estimated by reference to their quoted bid prices at their reporting date. The fair value valuation for the US straight bonds also reflects the US-dollar spot rate as at the reporting date.

AASB 7.36(a),(c)
 AASB 7.IG23(a)

See note 34 for information on the Group's exposure to credit risk related to the bonds.

Securities and debentures

The carrying amounts of available-for-sale financial assets, comprising securities and debentures, are as follows:

		2011	2010	2009
		\$'000	\$'000	\$'000
AASB 7.25	Listed equity securities	421	343	330
	Investment in XY Ltd	433	433	783
AASB 7.25	Listed debentures	97	112	90
AASB 7.8(d)	Carrying amount	951	888	1,203

Other than the investment in XY Ltd, the assets are stated at fair value.

AASB 7.30(a)-(e)

XY Ltd, one of the Group's suppliers in the telecommunication business, is not a listed company. XY Ltd is currently in its second year of a major restructuring process, which has triggered possible litigation by third parties. Due to numerous uncertainties regarding the future development of XY Ltd, the fair value of the Group's equity investment in this entity cannot be reliably measured. This investment has therefore been stated at cost less impairment charges. An impairment charge of \$350,000 was recognised in 2010 within 'finance cost'. The Group plans to continue to hold its 15% interest in XY Ltd while it secures other supply lines.

14.3 Other short-term financial assets

In the reporting periods under review, other short-term financial assets include various investments in money market funds considered to be held for short-term trading.

		2011	2010	2009
		\$'000	\$'000	\$'000
AASB 7.8(a)(ii)	Financial assets held for trading (carried at fair value through profit or loss):			
AASB 7.5	Money market funds	655	649	631

Money market funds are carried at fair value

14.4 Derivative financial instruments

The carrying amounts for the Group's derivative financial instruments may be further analysed as follows:

		2011	2010	2009
	Fair value:	\$'000	\$'000	\$'000
AASB 7.22(b)	US-Dollar forward contracts – cash flow hedge	467	-	312
	Other forward exchange contracts – held-for-trading	115	212	178
	Derivative financial assets	582	212	490
	US-Dollar forward contracts – cash flow hedge	-	(160)	-
	Derivative financial liabilities	-	(160)	-
	Net fair value of derivatives	582	52	490

All derivatives are measured at fair value

AASB 7.22(a)
 AASB 7.22(b)
 AASB 7.22(c)

The Group uses forward foreign exchange contracts to mitigate exchange rate exposure arising from forecast sales in US dollars and other currencies. All US-dollar forward exchange contracts have been designated as hedging instruments in cash flow hedges in accordance with AASB 139 *Financial Instruments: Recognition and Measurement*.

Other forward exchange contracts are considered by management to be part of economic hedge arrangements but have not been formally designated.

AASB 7.23(a)
 AASB 7.23(b)

The Group's US-dollar forward contracts relate to cash flows that have been forecasted for March-June 2012. All forecast transactions for which hedge accounting has been used are expected to occur.

AASB 7.23(c)

During 2011, a gain of \$367,000 was recognised in other comprehensive income (2010: a loss of \$47,000). The cumulative amount recorded in equity amounts to a gain of \$467,000 (2010: cumulative loss of \$160,000; 2009: cumulative gain of \$312,000).

AASB 7.23(d)
 AASB 7.23(e)

During 2011, a loss of \$260,000 (2010: net gain of \$425,000) was reclassified from equity into profit or loss within 'revenue'.

AASB 7.24(b)

There was no significant ineffectiveness of cash flow hedges in 2011 and 2010.

14.5 Borrowings

Borrowings include the following financial liabilities:

	Current			Non-current			
	2011	2010	2009	2011	2010	2009	
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000	
AASB 7.8(e)(i)	Financial liabilities designated at fair value through profit or loss:						
	US-Dollar loans	250	255	275	7,700	7,965	8,105
AASB 7.8(f)	Financial liabilities measured at amortised cost:						
	Other bank borrowings	4,565	3,124	3,543	-	-	-
	Non-convertible bond	-	-	-	8,300	8,300	8,300
	Subordinated shareholder loan	-	-	-	5,000	5,000	5,000
	Total carrying amounts	4,815	3,379	3,818	21,000	21,265	21,405

AASB 7.25

Other than the US-dollar loans, all borrowings are denominated in AUD. Estimated fair values are as follows:

	Fair Value			Carrying amount		
	2011	2010	2009	2011	2010	2009
US-Dollar loans at fair value through profit or loss	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
	7,950	8,220	8,380	7,950	8,220	8,380
Other bank borrowings	4,565	3,124	3,543	4,565	3,124	3,453
Non-convertible bond	8,259	8,383	8,466	8,300	8,300	8,300
Subordinated shareholder loan	4,975	5,050	5,100	5,000	5,000	5,000
Total borrowings	25,749	24,777	25,489	25,815	24,644	25,223

AASB 7.27

Fair values of long-term financial liabilities have been determined by calculating their present values at the reporting date, using fixed effective market interest rates available to the Group. Except for the US-dollar loans, no fair value changes have been included in profit or loss for the period as financial liabilities are carried at amortised cost in the statement of financial position.

US-dollar loans at fair value through profit or loss:

US-dollar loans are designated at fair value through profit or loss to significantly reduce measurement inconsistencies (see note 4.17). The interest rate is fixed at 4%. US-dollar loans at fair value through profit or loss can be summarised as follows:

	2011	2010	2009
	\$'000	\$'000	\$'000
Carrying amount 1 July	8,220	8,380	8,690
Repayments	(300)	(230)	(315)
New borrowings	-	-	-
Change in fair values:			
Changes in credit risk	-	-	-
Other market factors	30	70	5
Carrying amount 30 June	7,950	8,220	8,830

AASB 7.10(a)

AASB 7.25

AASB 7.10(a)

AASB 7.11(a)

The cumulative changes since designation attributable to changes in credit risk are \$Nil (2010 and 2009: \$Nil). The Group estimates the credit-risk related change in fair value on a residual basis, as the difference between fair value-changes specifically attributable to interest rates and foreign exchange rates and the total change in fair value. At year-end the estimate shows an insignificant change attributable to credit risk.

AASB 7.10(b)

The total undiscounted amount repayable at maturity in respect of the loan, converted at year-end exchange rates is \$7,755,000 (2010: \$8,055,000; 2009: \$8,285,000), equivalent to a difference between the carrying amount and the amount repayable of \$195,000 (2010: \$165,000; 2009: \$95,000).

AASB 7.27

The fair value of the loans is measured as described in note 14.6.

AASB 116.74(a)
 AASB 7.31

Borrowings at amortised cost:
 Other bank borrowings are secured by land and buildings owned by the Group (see note 11).
 Current interest rates are variable and average 4.0 % (2010: 4.1%; 2009: 4.2%).

AASB7.31

The Group's non-convertible bond with a fixed interest rate of 5.0% matures on 20 November 2013 and is therefore classified as non-current.

AASB 124.17

The subordinated shareholder loan was provided by Grant Thornton CLEARR Example Pty Ltd's main shareholder, the LOM Investment Trust. It is perpetual and carries a fixed coupon of 4.0%. It is repayable only upon liquidation of Grant Thornton CLEARR Example Pty Ltd.

14.6 Financial instruments measured at fair value

The following table presents financial assets and liabilities measured at fair value in the statement of financial position in accordance with the fair value hierarchy. This hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement. The financial assets and liabilities measured at fair value in the statement of financial position are grouped into the fair value hierarchy as follows:

30 June 2011		Level 1	Level 2	Level 3	Total
		\$'000	\$'000	\$'000	\$'000
Assets					
Listed securities and debentures	a)	518	-	-	518
Money market funds	b)	655	-	-	655
US-Dollar contracts -					
cash flow hedge	c)	-	467	-	467
Other forward exchange contracts					
– held-for-trading	c)	-	94	21	115
Total		1,173	561	21	1,755
Liabilities					
US-Dollar loans	d)	-	(7,950)	-	(7,950)
Total		-	(7,950)	-	(7,950)
Net fair value		1,173	(7,389)	21	(6,195)

AASB 7.27B(a)	30 June 2010		Level 1	Level 2	Level 3	Total
		Note	\$'000	\$'000	\$'000	\$'000
	Assets					
	Listed securities and debentures	a)	455	-	-	455
	Money market funds	b)	649	-	-	649
	Other forward exchange contracts – held-for-trading	c)	-	184	28	212
	Total		1,104	184	28	1,316
	Liabilities					
	US-Dollar forward contracts – cash flow hedge	c)	-	(160)	-	(160)
	US-Dollar loans	d)	-	(8,220)	-	(8,220)
	Total		-	(8,380)	-	(8,380)
	Net fair value		1,104	(8,196)	28	(7,064)

AASB 7.27B(b) There have been no significant transfers between levels 1 and 2 in the reporting period.

Measurement of fair value

AASB 7.27 The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared to the previous reporting period.

a) Listed securities and debentures

AASB 7.27(a)
 AASB 7.27(b) All the listed equity securities and debentures are denominated in AUD and are publicly traded in Australia. Fair values have been determined by reference to their quoted bid prices at the reporting date.

b) Money market funds

AASB 7.27(a)
 AASB 7.27(b) The fair value of the Group's investments in money market funds has been determined by reference to their quoted bid prices at the reporting date. All money market funds are publicly traded on stock exchanges in Australia. Gains and losses are recorded within 'other financial items'.

c) Derivatives

AASB 7.27(a)
 AASB 7.27(b) Where derivatives are traded either on exchanges or liquid over-the-counter markets the Group uses the closing price at the reporting date. Normally, the derivatives entered into by the Group are not traded in active markets. The fair values of these contracts are estimated using a valuation technique that maximises the use of observable market inputs, e.g. market exchange and interest rates (Level 2). Most derivatives entered into by the Group are included in Level 2 and consist of foreign currency forward contracts. A few of the Group's derivative positions in foreign currency forward contracts are classified within Level 3. These primarily relate to positions in currencies for which markets are less developed.

d) US-dollar loans

AASB 7.27(a)
 AASB 7.27(b) The fair value of the loans is estimated using a valuation technique. All significant inputs into the model are based on observable market prices, e.g. market interest rates of similar loans with similar risk. The interest rate used for this calculation is 3.9%.

Level 3 fair value measurements

The Group's measurement of financial assets and liabilities classified in Level 3 uses valuation techniques based on significant inputs that are not based on observable market data. The financial instruments within this level can be reconciled from beginning to ending balances as follows:

		2011	2010
		\$'000	\$'000
AASB 7.27B(c)	Opening balance	28	34
	Gains or losses recognised in:		
AASB 7.27B(c)(i)	- Profit or loss (a)	23	18
AASB 7.27B(c)(ii)	- Other comprehensive income	-	-
AASB 7.27B(c)(iii)	Purchases	-	-
AASB 7.27B(c)(iii)	Sales	-	-
AASB 7.27B(c)(iii)	Issues	-	-
AASB 7.27B(c)(iii)	Settlements	(30)	(24)
AASB 7.27B(c)	Closing balance	<u>21</u>	<u>28</u>

AASB 7.27B(d) Gains or losses recognised in profit or loss for the period are presented in 'finance income' and can be attributed as follows:

	2011	2010
	\$'000	\$'000
Assets held at the end of the reporting period	21	28
Assets not held at the end of the reporting	2	(10)
Total gains or losses	<u>23</u>	<u>18</u>

AASB 7.27B(e) Changing inputs to the Level 3 valuations to reasonably possible alternative assumptions would not change significantly amounts recognised in profit or loss, total assets or total liabilities or total equity.

AASB 7.27B(c)(iv) There have been no transfers into or out of level 3 in the reporting periods under review.

15 Deferred tax assets and liabilities

Deferred taxes arising from temporary differences and unused tax losses can be summarised as follows:

AASB 112.81(g)	1 July 2010 \$'000	Recognised in other comprehensive income \$'000	Recognised in business combination \$'000	Recognised in profit and loss \$'000	30 June 2011 \$'000
Deferred tax liabilities (assets)					
Non-current assets					
Other intangible assets	847	(63)	444	30	1,258
Property, plant and equipment	2,130	(22)	188	406	2,702
Other long term financial assets	(95)	-	-	19	(76)
Investment property	1,914	-	-	93	2,007
Current assets					
Trade and other receivables	(168)	-	-	38	(130)
Non-current liabilities					
Pension and other employee obligations	-	-	-	-	-
Current liabilities					
Provisions	(1,003)	-	-	639	(364)
Unused tax losses	(75)	-	-	75	-
	<u>3,550</u>	<u>(85)</u>	<u>632</u>	<u>1,300</u>	<u>5,397</u>
Recognised as:					
Deferred tax asset	<u>(225)</u>				<u>-</u>
Deferred tax liability	<u>3,775</u>				<u>5,397</u>

Deferred taxes for the comparative period ended 30 June 2010 can be summarised as follows:

	1 July 2009 \$'000	Recognised in other comprehensi ve income \$'000	Included in disposal group \$'000	Recognised in business combination \$'000	Recognised in profit and loss \$'000	30 June 2010 \$'000
Deferred tax liabilities (assets)						
Non-current assets						
Other intangible assets	409	(27)	-	210	255	847
Property, plant and equipment	1,528	(68)	-	225	445	2,130
Other long term financial assets	-	-	-	-	(95)	(95)
Investment property	1,861	-	-	-	53	1,914
Current assets						
Trade and other receivables	(34)	-	-	-	(134)	(168)
Non-current liabilities						
Pension and other employee obligations	-	-	-	-	-	-
Current liabilities						
Provisions	(1,320)	-	74	-	243	(1,003)
Unused tax losses	(300)	-	-	-	225	(75)
	<u>2,144</u>	<u>(95)</u>	<u>74</u>	<u>435</u>	<u>992</u>	<u>3,550</u>
Recognised as:						
Deferred tax asset	<u>(520)</u>					<u>(225)</u>
Deferred tax liability	<u>2,664</u>					<u>3,775</u>

The amounts recognised in other comprehensive income relate to revaluation of land and exchange differences on translating foreign operations (see below).

AASB 112.81(f)

A deferred tax liability of \$1,000 (2010 and 2009: \$2,000) associated with an investment in a domestic subsidiary has not been recognised, as the Group controls the timing of the reversal and it is probable that the temporary difference will not reverse in the foreseeable future. The tax value is equivalent to a temporary difference of \$3,000 (2010 and 2009: \$7,000).

AASB 112.81(e)

All deferred tax assets (including tax losses and other tax credits) have been recognised in the statement of financial position.

The amount of income tax relating to each component of other comprehensive income can be summarised as follows:

	2011			2010		
	Before tax	Tax benefit (expense)	Net of tax	Before tax	Tax benefit (expense)	Net of tax
	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Revaluation of land	303	(91)	212	-	-	-
Cash flow hedging	627	-	627	(472)	-	(472)
Available-for-sale financial assets	63	-	63	35	-	35
Exchange differences on translation of foreign operations	(664)	176	(488)	(341)	95	(246)
Other comprehensive income from equity accounted investments	2	-	2	-	-	-
Other comprehensive income	331	85	416	(778)	95	(683)

16 Inventories

Inventories recognised in the statement of financial position can be analysed as follows:

	2011	2010	2009
	\$'000	\$'000	\$'000
Raw materials and consumables	7,737	17,907	7,710
Merchandise	10,811	9,469	10,961
Inventories	18,548	17,376	18,671

AASB 102.36(d)
 AASB 102.36(e)

In 2011, a total of \$35,265,000 of inventories was included in profit and loss as an expense (2010: \$32,907,000). This includes an amount of \$361,000 resulting from write down of inventories (2010: \$389,000).

AASB 102.36(f)
 AASB 102.36(g)
 AASB 102.36(h)

No reversal of previous write-downs was recognised as a reduction of expense in 2010 or 2011. None of the inventories are pledged as securities for liabilities.

17 Trade and other receivables

AASB 101.77 AASB 101.78(b)	2011	2010	2009
	\$'000	\$'000	\$'000
Trade receivables, gross	31,265	23,889	18,873
Allowance credit losses	(432)	(560)	(112)
Trade receivables	30,833	23,329	18,761
Receivables due from ABC associates	112	112	112
Financial assets	30,945	23,441	18,873
Social security and other taxes	1,012	898	998
Construction contracts for telecommunication solutions	1,374	974	670
Prepayments	298	315	178
Non financial assets	2,684	2,187	1,846
Trade and other receivables	33,629	25,628	20,719

AASB 7.25
AASB 7.29 All amounts are short-term. The net carrying value of trade receivables is considered a reasonable approximation of fair value.

AASB 101.60 The receivable due from ABC associates relates to the remaining consideration due on the sale of a former subsidiary in 2009. The carrying amount of the receivable is considered a reasonable approximation of fair value as this financial asset (which is measured at amortised cost) is expected to be paid within six months, such that the time value of money is not significant.

AASB 7.37(b) All of the Group's trade and other receivables have been reviewed for indicators of impairment. Certain trade receivables were found to be impaired and an allowance for credit losses of \$72,000 (2010: \$514,000) has been recorded accordingly within other expenses (see also note 25). The impaired trade receivables are mostly due from customers in the business-to-business market that are experiencing financial difficulties.

AASB 7.16 The movement in the allowance for credit losses can be reconciled as follows:

AASB 7.16	2011	2010	2009
	\$'000	\$'000	\$'000
Reconciliation of bad debt loss			
Balance 1 July	560	112	190
Amounts written off (uncollectable)	(200)	(66)	(78)
Impairment loss	72	514	-
Impairments loss reversed	-	-	-
Balance 30 June	432	560	112

An analysis of unimpaired trade receivables that are past due is given in note 34.4.

AASB 7.36(d) The carrying amount of receivables whose terms have been renegotiated, that would otherwise be past due or impaired is \$Nil (2010 and 2009: \$Nil).

17.1 Construction contracts

AASB 111.39(a) Revenue of \$50,973,000 (2010: \$49,186,000) relating to construction contracts for telecommunication solutions has been included in revenue for the current reporting period.

AASB 111.43
 AASB 111.44

The amounts recognised in the statement of financial position relate to construction contracts in progress at the end of the reporting period. The amounts are calculated as the net amounts of costs incurred plus recognised profits, less recognised losses and progress billings. The carrying amounts of assets and liabilities are analysed as follows:

	2011 \$'000	2010 \$'000	2009 \$'000
AASB111.40(a) Aggregate amounts of costs incurred and recognised profits and losses for all contracts in progress	3,421	3,121	3,345
Less progress billing	(2,335)	(2,354)	(2,675)
	1,086	767	670
Recognised as:			
AASB 111.42(a) Due from customers for construction contract work, recognised in trade and other receivables	1,374	974	670
AASB 111.42(b) Due to customers for construction contract work, recognised in other liabilities	288	207	-

AASB 111.40(b) Advances paid from customers for construction contracts related to work not yet performed have been recognised in 'other liabilities' (see note 24) and amount to \$225,000 (2010: \$220,000; 2009: \$220,000).

AASB 111.40(c) Retentions on construction contracts amount to \$10,000 (2010 and 2009: \$Nil) included within 'trade and other receivables'. Retentions will be received upon acceptance by the customer of the work performed.

18 Cash and cash equivalents

AASB 107.45

Cash and cash equivalents include the following components:

	2011 \$'000	2010 \$'000	2009 \$'000
Cash at bank and in hand:			
AUD	24,352	7,867	7,026
GBP	2,087	674	550
USD	1,392	449	430
short term deposits (AUD)	6,958	2,247	2,001
Cash and cash equivalents	34,789	11,237	10,007

AASB 107.48
 AASB 110.19

Following the acquisition of Goodtech some bank deposits of the acquiree were temporarily not available for general use by the Group because of legal restrictions. The amount of cash and cash equivalents inaccessible to the Group as at 30 June 2011 amounts to \$500,000 (2010 and 2009: \$Nil). All the restrictions on bank deposits were removed by the time of the approval of the consolidated financial statements on 31 August 2011.

19 Assets and disposal groups classified as held for sale and discontinued operations

AASB 5.41(a)-(d)

In the middle of 2010 management decided to discontinue in-store sale of IT and telecommunications hardware. This decision was taken in line with the Group's strategy to focus on its web-based online retail business. Consequently, assets and liabilities allocable to Highstreet Ltd and subsidiaries (included in the retail segment) were classified as a disposal group. Revenue and expenses, gains and losses relating to the discontinuation of this subgroup have been eliminated from profit or loss from the Group's continuing operations and are shown as a single line item on the face of the statement of comprehensive income (see 'loss for the year from discontinued operations').

AASB 107.40(a)

On 31 March 2011, Highstreet Ltd and subsidiaries were sold for a total of \$3,117,000 in cash resulting in a loss of \$29,000 before tax primarily due to related selling costs (see note 5.2). Operating profit of Highstreet Ltd and subsidiaries' until the date of disposal and the profit or loss from re-measurement and disposal of assets and liabilities classified as held for sale is summarised as follows:

	2011	2010	
	\$'000	\$'000	
AASB 5.33(b)(i)	Revenue	9,803	11,015
	Costs of material	(3,540)	(3,633)
	Employee benefits expense	(6,100)	(6,411)
	Depreciation and amortisation	-	(765)
	Other expenses	(90)	(100)
	Operating profit	73	106
	Finance costs	(56)	(60)
	Profit from discontinued operations before tax	17	46
AASB 5.33(b)(ii), also AASB 112.81(h)	Tax expense	(5)	(14)
	Profit for year	12	32
	Gain (loss) on remeasurement and disposal		
AASB 5.33(b)(iii)	Loss before tax on measurement to fair value less cost to sell	-	(510)
	Loss before tax on disposal	(29)	-
AASB 5.33(b)(iv), also AASB 112.81(h)	Tax income (expense)	8	153
	Total gain (loss)	(21)	(357)
	Loss for the year from discontinued operations	(9)	(325)

AASB 5.41(b)-(d)

Most of the assets and all of the liabilities have been disposed of in this transaction, however, the Group continues to own some former Highstreet storage facilities. Management expects to sell these remaining assets during 2012.

AASB 5.38

The carrying amounts of assets and liabilities in this disposal group is summarised as follows:

	2011	2010	2009
	\$'000	\$'000	\$'000
Non current assets			
- Property, plant and equipment	103	2,578	-
- Deferred tax	-	227	-
Current assets			-
- Inventories	-	1,081	-
- Cash and cash equivalents	-	22	-
Assets classified as held for sale	<u>103</u>	<u>3,908</u>	<u>-</u>
Non current liabilities			
- Deferred tax	-	-	-
Current liabilities			
- Provisions	-	(245)	-
- Trade and other payables	-	(190)	-
- Current tax liabilities	-	(14)	-
Liabilities classified as held for sale	<u>-</u>	<u>(449)</u>	<u>-</u>

AASB 5.33(c)

Cash flows generated by Highstreet Ltd and subsidiaries for the reporting periods under review until the disposal is summarised as follows:

	2011	2010
	\$'000	\$'000
Operating activities	(22)	811
Investing activities	3,117	-
Financing activities	-	-
Cash flows from discontinued operations	<u>3,095</u>	<u>811</u>

Cash flows from investing activities relate solely to the proceeds from the sale of Highstreet Ltd.

20 Equity

20.1 Share capital

AASB 101.79(a)(iii)
 AASB 101.79(a)(v)

The share capital of Grant Thornton CLEARR Example Pty Ltd consists only of fully paid ordinary shares, the shares do not have a par value. All shares are equally eligible to receive dividends and the repayment of capital and represent one vote at the shareholders' meeting of Grant Thornton CLEARR Example Pty Ltd.

	2011	2010	2009
AASB 101.79(a)(iv)	Shares issued and fully paid:		
	12,000,000	12,000,000	12,000,000
	270,000	-	-
	1,500,000	-	-
AASB 101.79(a)(ii)	13,770,000	12,000,000	12,000,000
	600,000	600,000	600,000
AASB 101.79(a)(i)	14,370,000	12,600,000	12,600,000

Additional shares were issued during 2010 relating to share-based payments (see note 21.2 for details on the Group's share-based employee remuneration schemes).

The Group issued 1,500,000 shares on 31 March 2011, corresponding to 12.5% of total shares issued. Each share has the same right to receive dividend and the repayment of capital and represents one vote at the shareholders' meeting of Grant Thornton CLEARR Example Pty Ltd.

AASB 101.79(a)(vii)

The authorised shares that have not yet been issued have been authorised solely for use in the Group's share-based remuneration programmes (see note 21.2).

AASB 101.79(a)(vi)

None of the parent's shares are held by any company in the Group.

21 Employee remuneration

21.1 Employee benefits expense

Expenses recognised for employee benefits are analysed below:

	2011	2010
	\$'000	\$'000
AASB 119.142	96,564	91,226
	11,229	10,608
AASB 2.51(a)	298	466
	1,608	2,130
AASB 119.46	4,491	4,243
	114,190	108,673

21.2 Share-based employee remuneration

As at 30 June 2011 the Group maintained two equity settled share-based payment schemes for employee remuneration, the Star Programme and the Stay Programme.

AASB 2.45(a)

The *Star Programme*, is part of the remuneration package of the Group's senior management. Options will only vest subject to the achievement of the following total shareholder return performance condition. If the Company's total shareholder return (representing dividend per share plus increase in share price divided by initial share price) is in the top quartile of companies in the ASX 200 Index (the Index) over the vesting period, the full number of options will vest. For performance between median and upper quartile, vesting will occur on a straight-line basis so that 25% of the options vest for median performance and full vesting occurs for top quartile performance. No options will vest if the total shareholder return is below the median in the Index. In addition, persons eligible to participate in this programme have to be employed until the end of the arranged vesting period. Upon vesting, each option allows the holder to purchase one ordinary share at a discount of 20-25% of the market price determined at grant date.

AASB 2.45(a)

The *Stay Programme*, is part of the remuneration package of the Group's research and development and sales personnel. For the options granted to vest, persons eligible to participate in this programme have to remain employed for the agreed vesting period. The maximum term of the options granted under the Stay Programme ends on 31 July 2011. Upon vesting, each option allows the holder to purchase one ordinary share at a discount of 15-20% of the market price determined at grant date.

All share-based employee remuneration will be settled in equity. The Group has no legal or constructive obligation to repurchase or settle the options.

AASB 2.45 (b)

Share options and weighted average exercise prices are as follows for the reporting periods presented:

	Star Programme		Stay Programme	
	Number of shares	Weighted average exercise price (\$)	Number of share	Weighted average exercise price (\$)
Outstanding at 1 July 2009	300,000	6.24	95,250	5.81
Granted	-	-	-	-
Forfeited	(513)	6.24	(1,012)	5.81
Exercised	-	-	-	-
Expired	-	-	-	-
Outstanding at 30 June 2010	299,487	6.24	94,238	5.81
Granted	100,000	7.81	-	-
Forfeited	(312)	6.24	(3,489)	5.81
Exercised	(270,000)	6.24	-	-
Outstanding at 30 June 2011	129,175	7.45	90,749	5.81
Exercisable at 30 June 2010	-	-	-	-
Exercisable at 30 June 2011	29,175	6.24	-	-

AASB 2.45(c)

The weighted average share price at the date of exercise was \$11.19 (no exercises in 2010).

AASB 2.47(a)(i)

The fair values of options granted were determined using a variation of the binomial option pricing model that takes into account factors specific to the share incentive plans, such as the vesting period. The total shareholder return performance condition related to the Star Programme, being a market condition, has been incorporated into the measurement by means of actuarial modelling. The following principal assumptions were used in the valuation:

	Star Programme		Stay Programme	
AASB 2.47	Grant date	1 Jul 2007	1 Aug 2010	5 Jul 2006
	Vesting period ends	30 Jun 2010	31 Jul 2013	31 Jul 2011
	Share price at date of grant	8.00	10.01	7.00
	Volatility	50%	50%	50%
	Option life	5 years	5 years	7 years
	Dividend yield	1%	1%	1%
	Risk free investment rate	4%	4%	4%
	Fair value at grant date	4.00	6.70	5.30
	Exercise price at date of grant	6.24	7.81	5.81
	Exercisable from / to	1 Jul 2010 / 30 Jun 2012	1 Aug 2013 / 30 Jun 2015	1 Aug 2011 / 4 Jul 2013
AASB 2.45(d)	Weighted average remaining contractual life	1.0 years	4.1 years	2.0 years

AASB 2.47(a)(ii)
 AASB 2.47(a)(iii)

The underlying expected volatility was determined by reference to historical data of the Company's shares over a period of time. No special features inherent to the options granted were incorporated into measurement of fair value.

AASB 2.51

In total, \$298,000 of employee remuneration expense (all of which related to equity-settled share-based payment transactions) has been included in profit or loss for 2011 (2010: \$466,000) and credited to share option reserve.

21.3 Employee benefits

The liabilities recognised for employee benefits in the statement of financial position consist of the following amounts:⁹

	2011 \$'000	2010 \$'000	2009 \$'000
Non current:			
- Defined benefit plans	11,224	10,812	10,242
Current:			
- Defined benefit plans	1,246	1,193	1,056
- Other short term employee obligations	221	303	280
Current pension and other employee obligations	1,467	1,496	1,336

AASB 101.69

The current portion of these liabilities represents the Group's obligations to its current and former employees that are expected to be settled during 2012. Other short-term employee obligations arise mainly from accrued holiday entitlement at the reporting date and various pension payments. As none of the employees are eligible for early settlement of pension arrangements, the remaining part of pension obligations for defined benefit plans is considered non-current.

AASB 119.120A(b)

The Group has set up a partly funded pension scheme for mid-to senior management that was available to certain senior workers after completing five years service. According to the plan, a certain percentage of the current salary is converted into a pension component each year. Pensions under this scheme are paid out when a beneficiary has reached the age of 65.

⁹ In the statement of financial position, the current and non-current portion of the defined benefit obligation are presented separately to comply with AASB 101.60. However, paragraph 118 of AASB 119 *Employee Benefits* does not specify whether this disaggregation is needed. Therefore, an entity is also allowed to present the obligation as non-current in its entirety.

The defined benefit obligation for the reporting periods under review are as follows:

		2011	2010	2009
		\$'000	\$'000	\$'000
AASB 119.120A(c)	Defined benefit obligation 1 July	47,410	38,889	34,778
AASB 119.120A(c)(i)	Current service cost	1,308	1,530	1,470
AASB 119.120A(c)(ii)	Interest cost	2,488	2,267	1,310
AASB 119.120A(c)(iii)	Contributions by plan participants	658	650	1,245
AASB 119.120A(c)(iv)	Actuarial (gains) / losses	3,261	3,761	976
AASB 119.120A(c)(vi)	Benefits paid	(1,251)	(1,187)	(890)
AASB 119.120A(c)(vii)	Past service costs	-	1,500	-
	Defined benefit obligation 30 June	<u>53,874</u>	<u>47,410</u>	<u>38,889</u>
AASB 119.120A(d)	Thereof			
	- Unfunded	-	-	-
	- Partly or wholly funded	53,874	47,410	38,889

For determination of the pension obligation, the following actuarial assumptions were used:

		2011	2010	2009
		\$'000	\$'000	\$'000
AASB 119.120A(n)(i)	Discount rate	5.3%	5.5%	5.4%
AASB 119.120A(n)(ii)	Expected rate of return on plan assets	7.2%	7.4%	7.3%
AASB 119.120A(n)(iv)	Expected rate of salary increases	4.3%	4.2%	4.3%
AASB 119.120A(n)(v)	Medical cost trend rates	4.4%	4.0%	4.2%
AASB 119.120A(n)(vi)	Average life expectancies:			
	- Male, 65 years of age at reporting date	82.5	82.5	82.5
	- Female, 65 years of age at reporting date	84.5	84.5	84.5
	- Male, 45 years of age at reporting date	84.5	84.5	84.5
	- Female, 45 years of age at reporting date	87.5	87.5	87.5

AASB 101.125(a)
 AASB 101.125(b)

These assumptions were developed by management under consideration of expert advice provided by independent actuarial appraisers. These assumptions have led to the amounts determined as the Group's defined benefit obligations for the reporting periods under review and should be regarded as management's best estimate. However, the actual outcome may vary. Estimation uncertainties exist especially in regards to medical cost trends, which may vary significantly in future appraisals of the Group's defined benefit obligations.

The assets held for the Group's defined benefit obligations can be reconciled from the opening balance to the reporting date as follows:

	2011	2010
	\$'000	\$'000
AASB 119.120A(e) Fair value of plan assets 1 July	32,575	29,901
AASB 119.120A(e)(i) Expected returns on plan assets	2,445	2,417
AASB 119.120A(e)(ii) Actuarial gains / (losses)	6,629	(479)
AASB 119.120A(e)(iii) Foreign currency exchange rate	-	-
AASB 119.120A(e)(iv) Contributions by the Group	1,186	1,273
AASB 119.120A(e)(v) Contributions by beneficiaries	658	650
AASB 119.120A(e)(vi) Benefits paid	(1,251)	(1,187)
Fair value of plan assets 30 June	<u>42,242</u>	<u>32,575</u>

AASB 119.120A(k) Plan assets do not comprise any of the Group's own financial instruments or any assets used by Group companies. Plan assets can be broken down into the following major categories of investments:

	Total plan assets		
	2011	2010	2009
AASB 119.120A(j) Real estate funds	27%	27%	26%
Equity investment funds	50%	51%	54%
Money market funds	1%	1%	1%
Other debt instruments	17%	18%	16%
Liquid funds	5%	3%	3%
	<u>100%</u>	<u>100%</u>	<u>100%</u>

The Group's defined benefit obligations and plan assets may be reconciled to the amounts presented on the face of the statement of financial position for each of the reporting periods under the review as follows:

	2011	2010	2009
	\$'000	\$'000	\$'000
AASB 119.120A(f) Defined benefit obligations	53,874	47,410	38,889
Fair value of planned assets	(42,242)	(32,575)	(29,901)
AASB 119.120A(f)(i) Net actuarial gain (loss) not recognised	1,438	(1,930)	2,310
AASB 119.120A(f)(ii) Past service cost not yet	(600)	(900)	-
Defined benefit plan	<u>12,470</u>	<u>12,005</u>	<u>11,298</u>
Classified as:			
Non current liability	11,224	10,812	10,242
Current liability	1,246	1,193	1,056
	<u>12,470</u>	<u>12,005</u>	<u>11,298</u>

Total expenses resulting from the Group's defined benefit plans can be analysed as follows:

	2011	2010
	\$'000	\$'000
Employee benefits expense:		
AASB 119.120A(g)(i) Current service cost	1,308	1,530
AASB 119.120A(g)(vi) Past service costs	300	600
Employee benefits expense	1,608	2,130
AASB 119.120A(g)(ii) Interest costs	2,488	2,267
AASB 119.120A(g)(iii) Expected returns on plan assets	(2,445)	(2,417)
AASB 119.120A(g)(v) Actuarial (gains) losses recognised during the period	-	-
Total expenses recognised in profit or loss	<u>1,651</u>	<u>1,980</u>

AASB 119.120A(g)
 AASB 119.120A(h) Interest costs have been included in 'finance costs' (see note 25). Return on plan assets is included in 'other financial items' (see note 26). All other expenses summarised above were included within 'employee benefits expense'. The Group recognises all actuarial gains and losses in accordance with the corridor approach (see note 4.24). Actuarial gains and losses arising in the year were within the corridor and have therefore not been recognised in profit or loss.

AASB 119.120(l) also (m) Expected returns on plan assets are based on a weighted average of expected returns of the various assets in the plan, and include an analysis of historical returns and predictions about future returns. Expected returns on plan assets are estimated by independent pension scheme appraisals undertaken by external valuers in close coordination with each fund's treasury board. In 2011, the actual return on plan assets was \$2,900,000 (2010: \$1,900,000).

AASB 119.120A(o) If the medical cost rate assumed in the actuarial valuation of defined benefit obligations had been varied by +/- 1 percent, this would have altered the Group's defined benefit schemes at follows:

	2011		2010		2009	
	\$'000		\$'000		\$'000	
	+1%	-1%	+1%	-1%	+1%	-1%
Aggregate of current service and interest cost	684	(627)	746	(681)	709	(647)
Defined benefit obligation for medical costs	9,697	(8,797)	8,534	(7,734)	8,107	(7,347)

AASB 119.120A(q) Based on historical data, the Group expects contributions in the range of \$2,200,000 to \$2,500,000 to be paid for 2012.

The development of the Group's defined benefit plans may also be summarised as follows:

		2011	2010	2009	2008	2007
		\$'000	\$'000	\$'000	\$'000	\$'000
AASB 119.120A(p)(i)	Defined benefit obligation	53,874	47,410	38,889	34,778	30,105
AASB 119.120A(p)(i)	Fair value of plan assets	42,242	32,575	29,901	25,159	23,908
AASB 119.120A(p)(i)	Plan surplus / (deficit)	(11,632)	(14,835)	(8,988)	(9,619)	(6,197)
	Experience adjustments:					
AASB 119.120A(p)(ii)	Plan assets	1,733	226	219	213	212
AASB 119.120A(p)(ii)	Plan liabilities	1,860	915	109	104	105

22 Provisions

AASB 101.69 All provisions are considered current. The carrying amounts may be analysed as follows:

		Restructuring	Other	Total
		\$'000	\$'000	\$'000
AASB 137.84(a)	Carrying amount 1 July 2010	2,110	1,235	3,345
AASB 137.84(b)	Additional provisions	-	1,570	1,570
AASB 137.84(c)	Amount utilised	(876)	(2,211)	(3,087)
AASB 137.84(d)	Reversals	(510)	(103)	(613)
AASB 137.84(a)	Carrying amount 30 June 2011	724	491	1,215

Provisions recognised at acquisition date in a business combination are included in 'additions' (see note 5.1). Provisions classified as 'held for sale' are included within 'amount utilised' (see note 19).

AASB 137.85(a)
 AASB 137.85(b)
 AASB 137.85(c)
 AASB 101.60 The provision for restructuring relates to the 'Phoenix programme', which was initiated in early 2009 and carried out predominantly in 2009 and 2010. The Group's management expects to settle the remaining termination remuneration for former employees and legal fees relating to the restructuring programme in 2011. The Group is not eligible for any reimbursement by third parties in this regard.

AASB 101.125(a)
 AASB 101.125(b) The restructuring provision as at 30 June 2011 was reduced due to the outcome of several lawsuits brought against the Group during 2010 by former employees. Out of court settlements based on the outcome of earlier settlements are expected for most of the remaining claims.

AASB 137.85(a)
 AASB 137.85(b)
 AASB 137.85(c) Other provisions relate to various legal and other claims by customers, such as for example warranties for which customers are covered for the cost of repairs. The Group is not eligible for any reimbursement by third parties in this regard.

AASB 101.61 Usually, these claims are settled between three and 18 months from initiation, depending on the procedures used for negotiating the claims. As the timing of settlement of these claims is to a large extent dependent on the pace of negotiation with various counterparties and legal authorities, the Group cannot reliably estimate the amounts that will eventually be paid in settlement after more than 12 months from the reporting date. Therefore, the amount is classified as current.

AASB 101.125
 AASB 137.92 The majority of the other provisions recognised at 30 June 2010 related to claims initiated in 2009 that were settled during 2010/11. Management, on the advice of counsel, does not expect the outcome of any of the remaining cases will give rise to any significant loss beyond the amounts recognised at 30 June 2011. None of the provisions will be discussed here in further detail so as to not seriously prejudice the Group's position in the related disputes.

AASB 137.92

On the acquisition of Good Buy in 2010 (see note 5.3), a contingent liability for remaining potential lawsuits from former employees and customers was recognised. This contingent liability is not described in detail so as to not seriously prejudice the Group's position in the related disputes.

23 Trade and other payables

Trade and other payables recognised in the statement of financial position can be analysed as follows:

	2011	2010	2009
	\$'000	\$'000	\$'000
Current			
- Trade payables	7,893	6,512	6,981
- Short term bank overdrafts	654	78	123
- Finance lease liabilities	512	506	598
	<u>9,059</u>	<u>7,096</u>	<u>7,702</u>
Non-current			
- Finance lease liabilities	4,096	4,608	5,002
Total trade and other payables	<u>13,155</u>	<u>11,704</u>	<u>12,704</u>

AASB 7.25
 AASB 7.27(a)
 AASB 7.27(b)
 AASB 7.29

With the exception of the non-current part of finance lease liabilities, all amounts are short-term. The carrying values of trade payables and short-term bank overdrafts are considered to be a reasonable approximation of fair value.

The fair value of the Group's finance lease liabilities has been estimated at \$4,608,000 (2010: \$5,114,000; 2009: \$5,600,000). This amount reflects present value and takes into account interest rates available on secured bank borrowings on similar terms. See note 12.1 for further information.

24 Other liabilities

Other liabilities can be summarised as follows:

	2011	2010	2009
	\$'000	\$'000	\$'000
Due to customers for construction contract work	288	207	-
Advances received for construction contract work	225	220	220
Deferred service income	2,123	2,291	2,512
Other	22	657	-
Deferred gain	100	100	100
Other liabilities - current	<u>2,758</u>	<u>3,475</u>	<u>2,832</u>
Contingent consideration for the acquisition of Goodtech	620	-	-
Deferred gain	1,400	1,500	1,600
Other liabilities – non current	<u>2,020</u>	<u>1,500</u>	<u>1,600</u>

The amount presented as deferred gain relates to an office and production building, which was subject to a sale and lease back transaction in 2002, with a sales price above fair value. The excess of proceeds received over fair value was deferred and is being amortised over the lease term of 15 years. In 2011, deferred income of \$100,000 (2010: \$100,000) was recognised in profit or loss relating to this transaction. The subsequent leasing agreement is treated as an operating lease (see note 12.2). The non-current part of the deferred gain will be amortised between 2012 and the end of the lease term.

AASB 101.69
 AASB 101.61

All amounts recognised relating to deferred service income are considered current as the timing of service commitments is not at the discretion of the Group. Assuming an average remaining term of service on service contracts at 30 June 2011 of 32 months (2010: 38 months, 2009: 39 months) and constant service activity over the remaining term, the Group expects to amortise \$796,000 of deferred service income during 2012 (2011: \$723,000; 2010: \$772,000), and \$1,327,000 after that time (2011: \$1,568,000; 2010: \$1,781,000).

The amounts recognised in respect of construction contracts will generally be utilised within the next reporting period (see also note 17.1).

25 Finance income and finance costs

Finance costs may be analysed as follows for the reporting periods presented:

	2011	2010
	\$'000	\$'000
	220	230
	Borrowings from amortised cost:	
	- 200	200
	- 595	555
AASB 7.20(b)	<u>795</u>	<u>755</u>
AASB 7.20(b)	1,015	985
AASB 123.26(a)	(80)	(78)
	<u>935</u>	<u>907</u>
AASB 119.120A(g)(ii)	2,488	2,267
	20	-
AASB 7.20(a)(i)	30	70
AASB 7.20(a)(i)	-	-
AASB 7.20(a)(ii)	-	-
AASB 7.20(a)	-	350
	<u>3,473</u>	<u>3,594</u>

AASB 123.26(b) The borrowing costs have been capitalised at a rate of 4.4% per annum (2010: 4.5%)

AASB 7.B5(e) The loss on foreign currency financial liabilities designated at fair value through profit or loss takes account of interest payments on these loans.

AASB 7.20(e) An impairment loss was recognised in 2010 for the investment in XY Ltd, which is carried at cost less impairment charges as its fair value cannot be measured reliably (see note 14.2).

AASB 7.20(e) Impairments of trade receivables of \$72,000 (2010: \$514,000) have been included within 'other expenses' in profit or loss. Impairments of financial assets are further analysed in note 17 and 34.4.

Finance income may be analysed as follows for the reporting periods presented:

		2011	2010
		\$'000	\$'000
	Interest income from cash and cash equivalents	583	266
AASB 7.20(b)	Interest income on financial assets carried at amortised cost and available-for-sale financial assets	169	181
AASB 7.20(b)	Total interest income for financial assets not at fair value through profit or loss	752	447

AASB 107.43

In 2011, the Group acquired Goodtech (see note 5.1). The consideration transferred included a contingent payment arrangement amounting to \$ 600,000 as of the acquisition date. This is a non-cash transaction excluded from the statement of cash flows.

31 Related party transactions

AASB 124.18(g)

The Group's related parties include its associates and joint venture, key management, post-employment benefit plans for the Group's employees and others as described below. In addition, Grant Thornton CLEARR Example Pty Ltd has a subordinated loan from its main shareholder, the LOM Investment Trust (see note 14.5 for information on terms and conditions), on which interest is paid.

AASB 124.17(b)(i)
AASB 124.17(B)(ii)

Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

31.1 Transactions with associates

AASB 124.18(a)
AASB 124.17(b)

In order to meet peak demands by its customers, the Group has some of its consulting services carried out by professionals of its associate, Equipe Consultants S.A.

AASB 124.17(a)
AASB 124.17(b)

During 2011, Equipe Consultants S.A. provided services valued at \$568,000 (2010: \$590,000). The outstanding balance of \$20,000 (2010: \$22,000; 2009: \$18,000) due to Equipe Consultants S.A. is included in trade payables. In 2011, no transactions have been carried out with Shopmore GmbH. The Group did not receive dividends from associates in 2011 or 2010.

31.2 Transactions with joint ventures

AASB 124.18(e)
AASB 124.17(a)

During 2011, Halftime Ltd provided services valued at \$10,000 (2010: \$3,000). For joint ventures the full amount of the transactions are shown. These amounts are recognised using the proportionate consolidation method.

AASB 124.17(b)

There is no outstanding balance as at 30 June 2011 (2010 and 2009: Nil). The Group did not receive dividends from Halftime Ltd in 2010 or 2011.

31.3 Transactions with key management personnel

AASB 124.18(f) Key management of the Group are the executive members of Grant Thornton CLEARR Example Pty Ltd's Board of Directors and members of the executive council. Key management personnel remuneration includes the following expenses:

	2011	2010
	\$'000	\$'000
AASB 124.16(a) Short term employee benefits		
- Salaries including bonuses	2,420	2,210
- Social security costs	70	34
- Company car allowance	220	190
Total short term employee benefits	<u>2,710</u>	<u>2,434</u>
AASB 124.16(b) Post-employment benefits		
- Defined benefit pension plans	312	299
- Defined contribution pension plans	25	12
Total post-employment benefits	<u>337</u>	<u>311</u>
AASB 124.16(d) Termination benefits	100	-
AASB 124.16(e) Share-based payments	103	175
Total remuneration	<u><u>3,250</u></u>	<u><u>2,920</u></u>

AASB 124.17 During 2011 key management exercised share options with total exercise price of \$1,685,000 (2010: \$Nil) granted in The Group's *Star Programme*.

The Group allows its employees to take up limited short-term loans to fund merchandise and other purchases through the Group's business contacts. This facility is also available to the Group's key management personnel.

AASB 124.17(a)
 AASB 124.17(b) During 2011, the Group's key management received short term loans totalling \$40,000 (2010: \$38,000). The outstanding balance of \$1,000 (2010 and 2009: \$1,000) has been included in 'trade and other receivables'. There are no allowances for doubtful debts in relation to these loans (2010: \$Nil).

The Group used the legal services of one director in the company and the law firm over which he exercises significant influence. The amounts billed were based on normal market rates and amounted to \$21,000 (2010:\$Nil). There were no outstanding balances at the reporting dates under review.

AASB 124.9(g) **31.4 Transactions with post-employment benefit plans**
 The defined benefit plan referred to in note 21.3 is a related party.

The pension scheme does not hold shares in Grant Thornton CLEARR Example Pty Ltd. The Group's transactions with the pension scheme include contributions paid to the plan, which are disclosed in note 21.3. The Group has no other transactions or balances with the pension scheme.

AASB 101.14(d)(i)
 AASB 137.89 **32 Contingent assets and contingent liabilities**
 The Group has no contingent assets.

AASB 137.86 Various warranty and legal claims were brought against the Group during the year. Unless recognised as a provision (see note 22), management considers these claims to be unjustified and the probability that they will require settlement at the Group's expense to be remote. This evaluation is consistent with external independent legal advice.

AASB 137.92 Further information on these contingencies is omitted so as not to seriously prejudice the Group's position in the related disputes.

AASB 128.40
 AASB 131.54 No contingent liabilities have been incurred by the Group in relation to associates and joint ventures.

AASB 101 Aus 138.6 **33 Capital commitments**

	2011	2010
	\$'000	\$'000
Within 12 months	1,500	190
Greater than 12 months and less than 5 years	-	-
Longer than 5 years	-	-
	<u>1,500</u>	<u>190</u>

Capital commitments are for items of plant and IT equipment where funds have been committed but the assets not yet received.

34 Financial instrument risk

Risk management objectives and policies

AASB 101.114(d)(ii)
AASB 7.33

The Group is exposed to various risks in relation to financial instruments. The Group's financial assets and liabilities by category are summarised in note 14.1. The main types of risks are market risk, credit risk and liquidity risk.

AASB 7.IG15

The Group's risk management is coordinated at its headquarters, in close cooperation with the board of directors, and focuses on actively securing the Group's short to medium-term cash flows by minimising the exposure to financial markets. Long-term financial investments are managed to generate lasting returns.

The Group does not actively engage in the trading of financial assets for speculative purposes nor does it write options. The most significant financial risks to which the Group is exposed are described below.

The Group is exposed to market risk through its use of financial instruments and specifically to currency risk, interest rate risk and certain other price risks, which result from both its operating and investing activities.

34.1 Foreign currency sensitivity

AASB 7.33(a)

Most of the Group's transactions are carried out in AUD. Exposures to currency exchange rates arise from the Group's overseas sales and purchases, which are primarily denominated in US dollars (USD) and Pound Sterling (GBP). The Group also holds an investment in a USD bond. Further, the Group has a USD loan designated at fair value through profit or loss, which has been used to fund the purchase of investment property in the United States.

AASB 7.33(b)
AASB 7.IG15
AASB 7.33(c)

To mitigate the Group's exposure to foreign currency risk, non-AUD cash flows are monitored and forward exchange contracts are entered into in accordance with the Group's risk management policies. Generally, the Group's risk management procedures distinguish short-term foreign currency cash flows (due within 6 months) from longer-term cash flows (due after 6 months). Where the amounts to be paid and received in a specific currency are expected to largely offset one another, no further hedging activity is undertaken. Forward exchange contracts are mainly entered into for significant long-term foreign currency exposures that are not expected to be offset by other currency transactions.

The Group does not enter into forward exchange contracts to mitigate the exposure to foreign currency risk on the Group's USD loan used to fund the purchase of US investment property. The loan is designated at fair value through profit and loss to significantly reduce measurement inconsistencies between investment properties and the related loan, ie a foreign currency loss on the investment property is offset by a gain on the related loan. Therefore, the loan is not included in management's assessment of foreign currency exposure.

Foreign currency denominated financial assets and liabilities which expose the Group to currency risk are disclosed below. The amounts shown are those reported to key management translated into AUD at the closing rate:

AASB 7.34(a)		Short term exposure			Long term exposure		
		USD \$'000	GBP \$'000	Other \$'000	USD \$'000	GBP \$'000	Other \$'000
AASB 7.34(c)	30 June 2011						
	- Financial assets	4,518	3,629	308	1,363	-	-
	- Financial liabilities	710	1,658	-	-	-	-
	Total exposure	3,808	1,971	308	1,363	-	-
	30 June 2010						
	- Financial assets	2,920	1,840	233	1,442	-	-
	- Financial liabilities	586	1,368	-	-	-	-
	Total exposure	2,334	472	233	1,442	-	-
	30 June 2009						
	- Financial assets	2,503	1,488	188	1,499	-	-
	- Financial liabilities	628	1,466	-	-	-	-
	Total exposure	1,875	22	188	1,499	-	-

AASB 7.40(a)
 AASB 7.40(b)
 AASB 7.IG36

The following table illustrates the sensitivity of profit and equity in regards to the Group's financial assets and financial liabilities and the USD/AUD exchange rate and GBP/AUD exchange rate 'all other things being equal'. It assumes a +/- 10% change of the AUD/USD exchange rate for the year ended at 30 June 2011 (2010 and 2009: 10%). A +/- 5% change is considered for the AUD/GBP exchange rate (2010 and 2009: 5%). Both of these percentages have been determined based on the average market volatility in exchange rates in the previous 12 months. The sensitivity analysis is based on the Group's foreign currency financial instruments held at each reporting date and also takes into account forward exchange contracts that offset effects from changes in currency exchange rates.

If the AUD had strengthened against the USD by 10% (2010 and 2009: 10%) and GBP by 5% (2010 and 2009: 5%) respectively then this would have had the following impact:

	Profit for the year			Equity		
	USD \$'000	GBP \$'000	Total \$'000	USD \$'000	GBP \$'000	Total \$'000
30 June 2011	(97)	(99)	(197)	(47)	(99)	(147)
30 June 2010	(53)	(24)	(77)	(3)	(24)	(27)
30 June 2009	(67)	(1)	(68)	(27)	(1)	(28)

If the AUD had weakened against the USD by 10% (2010 and 2009: 10%) and GBP by 5% (2010 and 2009: 5%) respectively then this would have had the following impact:

	Profit for the year			Equity		
	USD \$'000	GBP \$'000	Total \$'000	USD \$'000	GBP \$'000	Total \$'000
30 June 2011	97	97	195	37	97	135
30 June 2010	53	20	73	13	20	33
30 June 2009	67	(2)	65	32	(2)	30

AASB 7.42 Exposures to foreign exchange rates vary during the year depending on the volume of overseas transactions. Nonetheless, the analysis above is considered to be representative of the Group's exposure to currency risk.

34.2 Interest rate sensitivity

AASB 7.33(a)
 AASB 7.33(b) The Group's policy is to minimise interest rate cash flow risk exposures on long-term financing. Longer-term borrowings are therefore usually at fixed rates. At 30 June 2011, the Group is exposed to changes in market interest rates through bank borrowings at variable interest rates. Other borrowings are at fixed interest rates. The Group's investments in bonds all pay fixed interest rates. The exposure to interest rates for the Group's money market funds is considered immaterial.

AASB 7.40(b)
 AASB 7.IG36 The following table illustrates the sensitivity of profit and equity to a reasonably possible change in interest rates of +/- 1% (2010 and 2009: +/- 1%). These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

AASB 7.40(a)

	Profit for the year		Equity	
	\$'000		\$'000	
	+1%	-1%	+1%	-1%
30 June 2011	36	(36)	26	(16)
30 June 2010	32	(32)	23	(14)
30 June 2009	37	(37)	22	(12)

34.3 Other price risk sensitivity

AASB 7.33(a) The Group is exposed to other price risk in respect of its listed equity securities, the investment in XY Ltd and debentures (see note 14.2).

AASB 7.40(a)
 AASB 7.40(b) For the listed equity securities, an average volatility of 20% has been observed during 2011 (2010: 18%; 2009: 17%). This volatility figure is considered to be a suitable basis for estimating how profit or loss and equity would have been affected by changes in market risk that were reasonably possible at the reporting date. If the quoted stock price for these securities increased or decreased by that amount, other comprehensive income and equity would have changed by \$85,000 (2010: \$62,000; 2009: \$57,000). The listed securities are classified as available-for-sale, therefore no effect on profit or loss would have occurred.

AASB 7.40(b) The Group's sensitivity to price risk in regards to its investment in XY Ltd cannot be reliably determined due to numerous uncertainties regarding the future development of this company (see note 14.2 for further information).

AASB 7.33(b) The investments in listed equity securities and in XY Ltd are considered long-term, strategic investments. In accordance with the Group's policies, no specific hedging activities are undertaken in relation to these investments. The investments are continuously monitored and voting rights arising from these equity instruments are utilised in the Group's favour.

AASB 7.40(a)
 AASB 7.40(b) The average volatility of the listed debentures was 15% in 2011 (2010: 13%; 2009: 9%). If the market price had increased or decreased by this amount, other comprehensive income and equity would have increased/decreased by \$15,000 (2010: \$15,000; 2009: \$9,000). As none of the debentures classified as available-for-sale were sold during any of the periods under review, no effect on profit or loss would have occurred (unless any decline in fair value to below cost is considered to result from impairment of the asset).

34.4 Credit risk analysis

AASB 7.33(a)
 AASB 7.36(a) Credit risk is the risk that a counterparty fails to discharge an obligation to the Group. The Group is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, investment in bonds etc. The Group's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at the reporting date, as summarised below:

AASB 7.34(a)	2011	2010	2009
	\$'000	\$'000	\$'000
Classes of financial assets -			
Carrying amounts:			
Bonds	2,814	2,992	3,124
Listed debentures	97	112	90
Money market funds	655	649	631
Derivative financial instruments	582	212	490
Cash and cash equivalents	34,789	11,237	10,007
Trade and other receivables	30,945	23,441	18,873
Carrying amount	69,882	38,643	33,215

AASB 7.33(b) The Group continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporates this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Group's policy is to deal only with creditworthy counterparties.

AASB 7.36(c) The Group's management considers that all the above financial assets that are not impaired or past due for each of the reporting dates under review are of good credit quality.

AASB 7.36(b)
 AASB 7.15 None of the Group's financial assets are secured by collateral or other credit enhancements.

AASB 7.37(a)
 AASB 7.IG28

Some of the unimpaired trade receivables are past due as at the reporting date. Financial assets past due but not impaired can be shown as follows:

	2011	2010	2009
	\$'000	\$'000	\$'000
Not more than 3 months	671	602	367
More than 3 months but not more than 6 months	90	88	41
More than 6 months but not more than 1 year	55	15	2
More than 1 year	2	1	1
Total	<u>818</u>	<u>706</u>	<u>411</u>

AASB 7.36(c)
 AASB 7.IG23

In respect of trade and other receivables, the Group is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Trade receivables consist of a large number of customers in various industries and geographical areas. Based on historical information about customer default rates management consider the credit quality of trade receivables that are not past due or impaired to be good.

AASB 7.36(d)

The carrying amount of financial assets whose terms have been renegotiated, that would otherwise be past due or impaired is \$Nil (2010 and 2009: \$Nil).

AASB 7.36(c)

The credit risk for cash and cash equivalents, money market funds, debentures and derivate financial instruments is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

AASB 7.36(a)
 AASB 7.36(c)
 AASB 7.IG23(a)
 AASB 7.20(e)

No impairment loss has been recorded in relation to the bonds (held-to-maturity investments, see note 14.2) which have been graded AA by Standard & Poors. No amounts in relation to the bonds are past due. The carrying amounts disclosed above are the Group's maximum possible credit risk exposure in relation to these instruments.

34.5 Liquidity risk analysis

AASB 7.33(a)
 AASB 7.33(b)
 AASB 7.39(c)

Liquidity risk is that the Group might be unable to meet its obligations. The Group manages its liquidity needs by monitoring scheduled debt servicing payments for long-term financial liabilities as well as forecast cash inflows and outflows due in day-to-day business. The data used for analysing these cash flows is consistent with that used in the contractual maturity analysis below. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a 180-day and a 360-day lookout period are identified monthly. Net cash requirements are compared to available borrowing facilities in order to determine headroom or any shortfalls. This analysis shows that available borrowing facilities are expected to be sufficient over the lookout period.

AASB 7.39(c)
 AASB 7.B11F
 AASB 7.IG31(c)
 AASB 7.IG31(d)

The Group's objective is to maintain cash and marketable securities to meet its liquidity requirements for 30-day periods at a minimum. This objective was met for the reporting periods. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

AASB 7.B11E

The Group considers expected cash flows from financial assets in assessing and managing liquidity risk, in particular its cash resources and trade receivables. The Group's existing cash resources and trade receivables (see note 14) significantly exceed the current cash outflow requirements. Cash flows from trade and other receivables are all contractually due within six months.

As at 30 June 2011, the Group's non-derivative financial liabilities have contractual maturities (including interest payments where applicable) as summarised below:

AASB 7.39(a) AASB 7.B11	Current		Non current	
	Within 6 months	6 to 12 months	1 to 5 years	Later than 5 years
30 June 2011	\$'000	\$'000	\$'000	\$'000
US-Dollar loans	280	280	1,761	8,215
Other bank borrowings	4,565	-	-	-
Non convertible bond	208	208	8,888	-
Finance lease obligations	364	364	1,415	3,539
Trade and other payables	8,547	-	-	-
Total	13,964	852	12,064	11,754

This compares to the maturity of the Group's non-derivative financial liabilities in the previous reporting periods as follows:

AASB 7.39(a) AASB 7.B11	Current		Non current	
	Within 6 months	6 to 12 months	1 to 5 years	Later than 5 years
30 June 2010	\$'000	\$'000	\$'000	\$'000
US-Dollar loans	289	289	1,781	8,508
Other bank borrowings	3,124	-	-	-
Non convertible bond	208	208	9,303	-
Finance lease obligations	363	363	1,432	4,072
Trade and other payables	6,590	-	-	-
Total	10,574	860	12,516	12,580

AASB 7.39(a) AASB 7.B11	Current		Non current	
	Within 6 months	6 to 12 months	1 to 5 years	Later than 5 years
30 June 2009	\$'000	\$'000	\$'000	\$'000
US-Dollar loans	304	304	1,861	8,638
Other bank borrowings	3,543	-	-	-
Non convertible bond	208	208	9,718	-
Finance lease obligations	414	414	1,429	4,531
Trade and other payables	7,104	-	-	-
Total	11,573	926	13,008	13,169

The above amounts reflect the contractual undiscounted cash flows, which may differ to the carrying values of the liabilities at the reporting date. The subordinated shareholder loan amounting to \$5,000,000 throughout all reporting periods is not included as this is only repayable upon liquidation of Grant Thornton CLEARR Example Pty Ltd. Annual interest payments amount to \$200,000.

In assessing and managing liquidity risks of its derivative financial instruments, the Group considers both contractual inflows and outflows. As at 30 June 2011, the contractual cash flows of the Group's derivative financial assets and liabilities are as follows:

AASB 7.39(b)
 AASB 7.B11

	Current		Non current	
	Within 6 months	6 to 12 months	1 to 5 years	Later than 5 years
30 June 2011	\$'000	\$'000	\$'000	\$'000
Gross settled forward contracts				
- Cash outflow	(212)	(6,978)	-	-
- Cash inflow	300	7,509	-	-
Total	88	531	-	-

AASB 7.34(a)

This compares to the contractual cash flows of the Group's derivative financial assets and liabilities in the previous reporting periods as follows:

AASB 7.39(b)
 AASB 7.B11

	Current		Non current	
	Within 6 months	6 to 12 months	1 to 5 years	Later than 5 years
30 June 2010	\$'000	\$'000	\$'000	\$'000
Gross settled forward contracts				
- Cash outflow	(190)	(7,100)	-	-
- Cash inflow	203	7,050	-	-
Total	13	(50)	-	-

AASB 7.39(b)
 AASB 7.B11

	Current		Non current	
	Within 6 months	6 to 12 months	1 to 5 years	Later than 5 years
30 June 2009	\$'000	\$'000	\$'000	\$'000
Gross settled forward contracts				
- Cash outflow	(201)	(6,540)	-	-
- Cash inflow	202	7,060	-	-
Total	1	520	-	-

Derivative financial instruments reflect forward exchange contracts (see note 14.4) that will be settled on a gross basis.

35 Capital management policies and procedures

AASB 101.134

The Group's capital management objectives are:

- to ensure the Group's ability to continue as a going concern
- to provide an adequate return to shareholders

by pricing products and services commensurately with the level of risk.

AASB 101.135(a)(i)

The Group monitors capital on the basis of the carrying amount of equity plus its subordinated loan, less cash and cash equivalents as presented on the face of the statement of financial position and cash flow hedges recognised in other comprehensive income.

AASB 101.135(a)(ii)

The Group's goal in capital management is to maintain a capital-to-overall financing ratio of 1:6 to 1:4. This is in line with the Group's covenants resulting from the subordinated loan it has taken out from its main shareholder in 2007.

AASB 101.135(a)(iii)

The Group sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities other than its subordinated loan. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

Capital for the reporting periods under review is summarised as follows:

AASB 101.135(b)

	2011	2010	2009
	\$'000	\$'000	\$'000
Total equity	83,914	52,388	39,153
Subordinated loan	5,000	5,000	5,000
Cash flow hedges	(469)	160	(312)
Cash and cash equivalents	(34,789)	(11,237)	(10,007)
Capital	<u>53,656</u>	<u>46,311</u>	<u>33,834</u>
Total equity	83,914	52,388	39,153
Borrowings	25,815	24,644	25,223
Overall financing	<u>109,729</u>	<u>77,032</u>	<u>64,376</u>
Capital-to-overall financing ratio	0.49	0.60	0.53

AASB 101.135(d)

The Group has honoured its covenant obligations, including maintaining capital ratios, since the subordinated loan was taken out in 2007. The ratio reduction during 2011 is primarily a result of financing the acquisition of Goodtech (see note 5.1).

36 Parent entity information

Information relating to Grant Thornton CLEARR Example Pty Ltd ('the parent entity')

	2011	2010
	\$'000	\$'000
Statement of financial position		
Current assets	56,816	40,220

Independent Auditor's Report

To the Members of Grant Thornton CLEARR Example Pty Ltd

We have audited the accompanying financial report of Grant Thornton CLEARR Example Pty Ltd (the "Company"), which comprises the consolidated statement of financial position as at 30 June 2011, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes to the financial report and the directors' declaration of the consolidated entity comprising the Company and the entities it controlled at the year's end or from time to time during the financial year.

Directors responsibility for the financial report

The Directors of the Company are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and the Corporations Act 2001. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. The Directors also state, in the notes to the financial report, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, that compliance with the Australian equivalents to International Financial Reporting Standards ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards which require us to comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial report in order to design audit procedures that are

appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Auditor's opinion

In our opinion:

- a the financial report of Grant Thornton CLEARR Example Pty Ltd is in accordance with the Corporations Act 2001, including:
 - i giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the year ended on that date; and
 - ii complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- b the financial report also complies with International Financial Reporting Standards as disclosed in the notes to the financial statements.

Appendix A: Organising the income statement by function of expenses

AASB 101.99

AASB 101.99 allows an 'income statement' format analysing expenses using a classification based on either the nature of expenses (NOE) or based on the function of expenses (FOE) within the entity. This depends on managements assessment of which format provides information that is reliable and more relevant.

The NOE format is illustrated in the main body of the example consolidated financial statements. The FOE format is illustrated in this appendix. The example shows the 'income statement' separately, ie other comprehensive income shall be shown in addition to the income statement in a statement of comprehensive income (see the example in appendix B).

If the entity shows the statement of comprehensive income in one statement (see the main body of the example financial statements), the FOE format included in this appendix may replace the NOE format that is part of the statement of comprehensive income.

The FOE or NOE formats do not affect the presentation requirements for other comprehensive income. Only the 'income statement' is affected.

AASB 101.104

When classifying expenses by function, further information on the nature of the expenses is required. For example, expenses relating to employee benefits need to be disclosed separately, as presented in note 21.1. in the main body of the example financial statements. These changes are highlighted and explained in note 1 that follows the 'income statement' format on the next page.

Income Statement

For the year ended 30 June 2011

AASB 101.51		Notes	2011 \$'000	2010 \$'000
AASB 101.51(c)				
AASB 101.51(d-e)

	Profit for the year attributable to:			
AASB 101.83(a)(i)	Non-controlling interest		121	116
AASB 101.83(a)(ii)	Owners of the parent		15,326	13,336
			15,447	13,452

1. Function of expense format – consequential changes

Applying the function of expense format (FOE) requires consequential changes to the main body of the financial statements. These example consolidated financial statements have been prepared on the nature of expense format. Care should be taken to ensure that all references and explanations are consistent with the policy applied. We have given **some** examples of consequential changes in this appendix.

1.1 Goodwill

In note 9, replace the grey shaded paragraph with the paragraphs below:

NOE

The related goodwill impairment loss of \$799,000 in 2011 (2010: \$190,000) was included within 'depreciation, amortisation and impairment of non-financial assets' and is allocated to the consulting segment.

FOE

The complete goodwill impairment loss in 2011 and 2010 has been included in 'administrative expenses'. The impairment loss has been attributed to the consulting segment.

1.2 Other intangible assets

In note 10, delete the last sentence of the following paragraph:

NOE

Additions to research and development costs include capitalised borrowing costs of \$80,000 (2010: \$78,000). In addition to development costs capitalised, the Group expensed as 'other expenses' \$1,690,000 of research and development costs during the year (2010: \$1,015,000).

In the last paragraph of note 10, replace the grey shaded sentence with the sentence below:

NOE

All amortisation and impairment charges (or reversals, if any) are included within 'depreciation, amortisation and impairment of non-financial assets'.

FOE

All amortisation and impairment charges (or reversals, if any) are included within 'cost of sales'.

1.3 Employee Benefits

In note 21.3, replace the grey shaded sentence with the paragraph below:

NOE

Interest costs have been included in 'finance costs' (see note 25). Return on plan assets is included in 'other financial items' (see note 26). All other expenses summarised above were included within 'employee benefits expense'.

FOE

Interest costs have been included in 'finance costs' (see note 25). Return on plan assets is included in 'other financial items' (see note 26). All other expenses summarised above were included within the line items of the income statement that they directly relate to, ie cost of sales, distribution costs, administrative expenses and research and development costs. Note 21.1 provides a summary of employee benefits expense included in profit or loss.

1.4 Discontinued Operations

AASB 5.33(b) required entities to further analyse the single line item included in the income statement for profit of a discontinued operation either on the face of the income statement or in the notes. This includes the disclosure of revenue and expenses of the discontinued operation. Note 19 represents an example thereof.

If an entity uses a different income statement format, it may facilitate a better understanding of the financial effects of discontinued operation if the analysis of profit from discontinued operations is presented using a format similar to the entity's income statement.

Appendix B: Statement of comprehensive income presented in two statements

As permitted by AASB 101 (Revised 2007) paragraph 81 the 'statement of comprehensive income' may be presented in either **two** statements, the 'income statement' and a 'statement of comprehensive income' or in a **single** 'statement of comprehensive income'.

The main body in these example consolidated financial statements presents the statement of comprehensive income of **one** statement.

In this appendix, the alternative of presenting the 'statement of comprehensive income' as two statements is presented (based on the nature of expense method).

Disclosure requirements, however, remain unchanged. For example, the entity is required to disclose reclassification adjustments (AASB 101.92) and related tax effects (AASB 101.90) relating to each item of other comprehensive income either on the face of the statement or in the notes. In this example the entity presents reclassification adjustments and current year gains and losses relating to other comprehensive income on the face of the statement.

Items of comprehensive income is presented before tax, with one amount shown for the aggregate amount of income tax relating to all components of comprehensive income. The tax amount is broken down in the notes (see note 15)

The accounting policies will need to disclose that the alternative of the two statements of the statement of comprehensive income has been adopted (see note 4.2). In general, the accounting policies will need to be tailored so that they refer to the 'income statement' and not the 'statement of comprehensive income' where appropriate. For example, tailoring is necessary to reflect that discontinued operations are shown as a separate line item in the 'statement of comprehensive income' (see note 4.10). However, it should be noted that the term 'profit or loss' continues to apply.

The illustrative **two** statements of comprehensive income is shown on the next page.

Income Statement

		<u>15,863</u>	<u>12,769</u>

Appendix C: Statement of cash flows presented using the indirect method

As permitted by AASB 107 Statement of Cash Flows paragraph 18 an entity may report cash flows from operating activities using either:

- a) the direct method, whereby major classes of gross cash receipts and gross cash payments are disclosed; or
- b) the indirect method, whereby profit or loss is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments, and items of income or expense associated with investing or financing cash flows.

Entities are encouraged to report cash flows from operating activities using the direct method. The direct method provides information which may be useful in estimating future cash flows and which is not available under the indirect method.

The main body in these example consolidated financial statements presents the statement of cash flows using the direct method.

In this appendix, the alternative of using the indirect method is presented.

Statement of Cash Flows

For the year ended 30 June 2011

AASB 101.51(c) AASB 101.51(d-e) AASB 107.10	Notes	2011 \$'000	2010 \$'000

Appendix D: Additional Disclosures for Mining Exploration Companies

The Example Consolidated Financial Statements for Grant Thornton CLEARR Example Pty Ltd is based upon an IT entity and therefore does not include specific disclosures relating to companies within the resource mining industry. As resource mining is widespread within Australia, we thought that providing the additional disclosures specific to companies within this industry would be useful for financial preparers.

We have identified common areas in the following pages that we consider our clients would be concerned with.

Summary of Accounting Policies

4 Interests in joint ventures

Jointly controlled assets

A jointly controlled asset involves joint control and offers joint ownership by the Group and other venturers of assets contributed to or acquired for the purpose of the joint venture, without the formation of a corporation, partnership or other entity.

Where the Group's activities are conducted through jointly controlled assets, the Group recognises its share of the jointly controlled assets, and liabilities it has incurred, its share of liabilities incurred jointly with other venturers, related revenue and operating costs in the financial statements and a share of their production.

Jointly controlled entities

A jointly controlled entity is a corporation, partnership or other entity in which each venturer holds an interest.

A jointly controlled entity operates in the same way as other entities, except that a contractual arrangement establishes joint control. A jointly controlled entity controls the assets of the joint venture, earns its own income and incurs its own liabilities and expenses. Interests in jointly controlled entities are accounted for using the equity method.

Under the equity method, the investment in the joint venture is carried in the statement of financial position at cost plus post acquisition changes in the Group's share of net assets of the joint venture. Goodwill relating to the joint venture is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The profit or loss reflects the Group's share of the results of operations of the joint venture. Where there has been a change recognised directly in other comprehensive income or equity of the joint venture, the Group recognises its share of any changes and discloses this, when applicable, in the statement of comprehensive income or the statement of changes in equity, as appropriate. Unrealised gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the joint venture.

The share of the joint venture's net profit/(loss) is shown on the face of profit or loss. This is the profit/(loss) attributable to venturers in the joint venture.

The financial statements of the jointly controlled entity is prepared for the same reporting period as the venturer. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

4.1 Mineral exploration, evaluation and development expenditure

Exploration and evaluation costs

Exploration and evaluation expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit or loss in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are transferred to Mine Properties and amortised over the life of the area according to the rate of depletion of the economically recoverable reserves (refer to Mine Properties below).

A regular review for impairment is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Costs of site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with clauses of the mining permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on a discounted basis.

Any changes in the estimates for the costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

Mine properties

Mine properties represent the accumulation of all exploration, evaluation and development expenditure incurred in respect of areas of interest in which mining has commenced or in the process of commencing. When further development expenditure is incurred in respect of mine property after the commencement of production, such expenditure is carried forward as part of the mine property only when substantial future economic benefits are thereby established, otherwise such expenditure is classified as part of the cost of production.

Amortisation is provided on a unit of production basis (other than restoration and rehabilitation expenditure detailed below) which results in a write off of the cost proportional to the depletion of the proven and probable mineral reserves.

The net carrying value of each area of interest is reviewed regularly and to the extent to which this value exceeds its recoverable amount, the excess is either fully provided against or written off in the financial year in which this is determined.

The Group provides for environmental restoration and rehabilitation at site which include any cost to dismantle and removal of certain items of plant and equipment. The cost of an item includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs when an item is acquired or as a consequence of having used the item during that period. This asset is depreciated on the basis of the current estimate of the useful life of the asset.

In accordance with AASB 137 Provisions, Contingent Liabilities and Contingent Assets an entity is also required to recognise as a provision the best estimate of the present value of expenditure required to settle the obligation. The present value of estimated future cash flows is measured using a current market discount rate.

4.2 Inventories

Gold bullion, base metal concentrate, metal in circuit and ore stockpiles are physically measured or estimated and valued at the lower of cost or net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and costs of selling final product.

Cost is determined by the weighted average method and comprises direct purchase costs and an appropriate portion of fixed and variable overhead costs, including depreciation and amortisation, incurred in converting materials into finished goods. The cost of production is allocated to joint products using a ratio of spot prices by volume at each month end. Separately identifiable costs of conversion of each metal are specifically allocated.

Materials and supplies are valued at the lower of cost or net realisable value. Any provision for obsolescence is determined by reference to specific items of stock. A regular review is undertaken to determine the extent of any provision for obsolescence.

4.3 Rehabilitation provision

In accordance with the Group's environmental policy and applicable legal requirements, a provision for site restoration in respect of contaminated land, is recognised when the land is contaminated.

The provision is the best estimate of the represent value of the expenditure required to settle the restoration obligation at the reporting date, based on current legal requirements and technology. Future restoration costs are reviewed annually and any changes are reflected in the present value of the restoration provision at the end of the reporting period.

The amount of the provision for future restoration costs is capitalised and is depreciated in accordance with the policy set out in Note X. The unwinding of the effect of discounting on the provision is recognised as a finance cost.

4.4 Revenue recognition

The following criteria are also applicable to other specific revenue transactions:

Gold bullion sales

Revenue from gold bullion sales is brought to account when the significant risks and rewards of ownership have transferred to the buyer and selling prices are known or can be reasonably estimated.

Base metal concentrate sales

Contract terms for the Group's sale of base metal concentrate (metal in concentrate) allow for a price adjustment based on final assay results of the metal in concentrate by the customer to determine the final content. Recognition of sales revenue for these commodities is based on the most recently determined estimate of metal in concentrate (based on initial assay results) and the spot price at the date of shipment, with a subsequent adjustment made upon final determination and presented as part of "Other Income".

The terms of metal in concentrate sales contracts with third parties contain provisional pricing arrangements whereby the selling price for metal in concentrate is based on prevailing spot prices on a specified future date after shipment to the customer (the "quotation period"). Adjustments to the sales price occur based on movements in quoted market prices up to the date of final settlement. The period between provisional invoicing and final settlement can be between one and six months.

The provisionally priced sales of metal in concentrate contain an embedded derivative, which is required to be separated from the host contract for accounting purposes. The host contract is the sale of metals in concentrate and the embedded derivative is the forward contract for which the provisional sale is subsequently adjusted.

Accordingly the embedded derivative, which does not qualify for hedge accounting, is recognised at fair value, with subsequent changes in the fair value recognised in profit or loss each period until final settlement, and presented as “Other Income”. Changes in fair value over the quotation period and up until final settlement are estimated by reference to forward market prices for gold and copper.

4.5 Deferred stripping costs

Stripping costs incurred in the development of a mine before production commences are capitalised as part of the cost of constructing the mine and subsequently amortised over the life of the mine on a units-of-production basis.

Where a mine operates several open pits that are regarded as separate operations for the purpose of mine planning, stripping costs are accounted for separately by reference to the ore from each separate pit. Stripping costs incurred subsequently during the production phase of its operation are deferred for those operations where this is the most appropriate basis for matching the cost against the related economic benefits and the effect is material. This is generally the case where there are fluctuations in stripping costs over the life of the mine. The amount of stripping costs deferred is based on the strip ratio obtained by dividing the tonnage of waste mined either by the quantity of ore mined or by the quantity of minerals contained in the ore. Stripping costs incurred in the period are deferred to the extent that the current period ratio exceeds the life of the mine strip ratio. Such deferred costs are then charged to profit or loss to the extent that, in subsequent periods, the current period ratio falls short of the life of mine (or pit) ratio. The life of mine (or pit) ratio is based on economically recoverable reserves of the mine (or pit). Changes are accounted for prospectively, from the date of the change.

Deferred stripping costs are included as part of ‘Mine properties’.

4.6 Significant Management Judgements in Applying Accounting Policies

4.7 Estimation Uncertainty

Additional example disclosures relating specifically to the mining industry that you may consider to include within these notes are as follows:-

Mine rehabilitation provision

The Group’s mining and exploration activities are subject to various laws and regulations governing the protection of the environment. The Group recognises management’s best estimate for assets retirement obligations in the period in which they are incurred. Actual costs incurred in the future periods could differ materially from the estimates. Additionally, future changes to environmental laws and regulations, life of mine estimates and discount rates could affect the carrying amount of this provision.

Ore reserve and resource estimates

The Group estimates its ore reserves and mineral resources based on information compiled by Competent Persons (as defined in the 2004 edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Resources (the JORC Code)). Reserves determined in this way are taken into account in the calculation of depreciation, amortisation, impairment, deferred mining costs, rehabilitation and environmental expenditure.

In estimating the remaining life of the mine for the purposes of amortisation and depreciation calculations, due regard is given, not only to remaining recoverable metals contained in proved and probable ore reserves, but also to limitations which could arise from the potential for changes in technology, demand, and other issues which are inherently difficult to estimate over a lengthy time frame.

Where a change in estimated recoverable metals contained in proved and probable ore reserves is made, depreciation and amortisation is accounted for prospectively.

The determination of ore reserves and remaining mine life affects the carrying value of a number of the Group's assets and liabilities including deferred mining costs and the provision for rehabilitation.

Units-of-production depreciation

Estimated recoverable reserves are used in determining the depreciation and / or amortisation of mine specific assets. This results in a depreciation / amortisation charge proportional to the depletion of the anticipated remaining life of mine production. Each item's life, which is assessed annually, has regard to both its physical life limitations and to present assessments of economically recoverable reserves of the mine property at which the asset is located. These calculations require the use of estimates and assumptions, including the amount of recoverable reserves and estimates of future capital expenditure.

Exploration and evaluation expenditure

The application of the Group's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits are likely either from future exploitation or sale or where activities have not reached a stage which permits a reasonable assessment of the existence of reserves. The determination of a Joint Ore Reserves Committee (JORC) resource is itself an estimation process that requires varying degrees of uncertainty depending on sub-classification and these estimates directly impact the point of deferral of exploration and evaluation expenditure. The deferral policy requires management to make certain estimates and assumptions about future events or circumstances, in particular whether an economically viable extraction operation can be established. Estimates and assumptions made may change if new information becomes available.

Deferred stripping expenditure

The Group defers advanced stripping costs incurred during the production stage of its operations. This calculation requires the use of judgments and estimates such as estimates of tonnes of waste to be removed over the life of the mining area and economically recoverable reserves extracted as a result. Changes in a mine's life and design will usually result in changes to the expected stripping ratio (waste to mineral reserves ratio).

Inventories

Costs incurred in or benefits of the productive process are accumulated as stockpiles, gold in process, ore on leach pads and product inventory. Net realisable value tests are performed at least annually and represent the estimated future sales price of the product based on prevailing spot metals prices at the reporting date, less estimated costs to complete production and bring the product to sale.

Stockpiles are measured by estimating the number of tonnes added and removed from the stockpile, the number of contained gold ounces based on assay data, and the estimated recovery percentage based on the expected processing method. Stockpile tonnages are verified by periodic surveys.

The metallurgical balancing process is constantly monitored and the recovery estimates are refined based on reconciliations with actual results over time.

X. Interests in joint ventures

Jointly controlled assets

Grant Thornton CLEARR, jointly with other participants, owns certain exploration and production assets. Grant Thornton CLEARR's share is XX%.

Summarised financial statement information for the Group's share of jointly controlled assets and operations is disclosed below:

	2011 \$'000s	2010 \$'000s
Non-current assets		
Exploration and evaluation assets		
Mine properties		
Other property, plant and equipment		
Current assets		
Accounts receivable		
Inventories		
Financial assets		

The aggregate of the Group's commitments through jointly controlled assets is:

Capital
 Exploration and other commitments

Interests in jointly controlled entities

Grant Thornton CLEARR has a XX% interest in Foolsgold Limited, a jointly controlled entity, the principal activities of which are the production of gold and mineral exploration. The interest in this joint venture is accounted using the equity accounting method.

Summarised financial statement information of the equity accounted joint venture entity is disclosed below:

	2011 \$'000s	2010 \$'000s
Sales and other operating revenues		
Finance costs and other finance expense		
Profit before taxation		
Taxation		
Profit for the year		
Non-current assets		
Current assets		
Total assets		
Current liabilities		
Non-current liabilities		
Total liabilities		

XX. Exploration and evaluation assets

	\$'000s
Cost as at 1 July 2009	
Additions	
Exploration expenditure written off	
Transfer to Mine Properties	
Cost as at 30 June 2010	
Additions
